# （1）Olympic Taekwondo Academy Kicking for Miracles <br> 2019 Fundraising Kit 

As you know，for 2019，we are going to raise money for Abilities Without Boundaries，a Cheshire based organization that helps individuals with mental and physical disabilities lead more productive and fulfilling lives．
We are planning to take donations in two ways，as a flat donation amount and as a factor to be used with the number of kicks executed at the kicking for miracles event．These two methods will be used to calculate which top five students will win prizes at the presentation event to be held after all of the donations are collected and tallied．
Example During the Fundraising Period：

| Donor Name | Date | Flat Donation <br> Amount | Amount per <br> Kick | Number <br> of Kicks | Total | Paid |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Master Jang | $9 / 20$ |  | $20 屯$ |  |  |  |
| Mrs．Jang | $9 / 21$ | $\$ 20.00$ |  |  | 20.00 | $\checkmark$ |
| Peter | $9 / 22$ |  | $10 屯$ |  |  |  |

At the Kicking For Miracles event，each student will be given the opportunity to kick for one minute．The resulting number of kicks will be entered into the worksheet and the total donation amounts will be calculated． Let＇s say the student kicks 50 times（a good average）．The result would look like this．．．

| Donor Name | Date | Flat Donation <br> Amount | Amount per <br> Kick | Number <br> of Kicks | Total | Paid |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Master Jang | $9 / 20$ |  | $20 屯$ | 50 | 10.00 | $\checkmark$ |
| Mrs．Jang | $9 / 21$ | $\$ 20.00$ |  |  | 20.00 | $\checkmark$ |
| Peter | $9 / 22$ |  | $10 \Varangle$ | 50 | 5.00 | $\checkmark$ |

As the student collects the donations from those who pledged，they can mark them paid．The total donated in this example will be $\$ 35$ ．This amount will be will be turned in at the dojang one week after the event．
