

March 15, 2020

The health and wellness of our Riverwatch team and the cleanliness of our establishment has always been our top priority. It has long been our strict policy to maintain the cleanest restaurant we can.

In light of the nationwide health situation the country is now facing, we have put in place additional measures to ensure that we are doing everything we can for the health our valued staff and patrons. Some additional proactive measures we have added include:

1. We have increased the frequency and scope of our already rigorous cleaning and sanitation procedures restaurant wide.
2. All our menus are sanitized after every single use (no exceptions)
3. We have reduced various items from our tables to minimize common contact. Please do not hesitate to ask our staff for any items you may need.
4. We are happy to provide our customers with disposable single use utensils and condiments available upon request.
5. We are also temporarily offering curbside to-go service for those that do not feel comfortable in public spaces right now. Our full menu can be found online at www.riverwatchgrill.com. Simply call 828-625-1030 to place your order and call again when you arrive. We will have a designated parking space at the front of our building for this service.

We want everyone in our community to stay safe and healthy! So we do ask that, for the sake of our staff and patrons, if you are feeling feverish or are showing any symptoms that you please stay home. Our goal is to do everything we can to keep our valued staff working and earning income for as long as possible. We also want to do everything we can to keep providing our community with a relaxed and welcoming restaurant. We appreciate your support in this endeavor. We will be monitoring the situation and will of course follow all recommended actions put forth by our local and state health departments and government entities. Thank you as always for your continued support.
