

OPPORTUNITIES TO WORK AND PARTNER WITH THE   
**CHICAGO DEPARTMENT OF AVIATION**

# PROCUREMENT OPPORTUNITIES GUIDE

**O'HARE & MIDWAY**  
— INTERNATIONAL AIRPORTS — 

**2Q 2020 – 4Q 2023**

 **CDA**  
CHICAGO DEPARTMENT OF AVIATION 

# Commissioner's Statement

On behalf of Mayor Lori E. Lightfoot and the Chicago Department of Aviation, we are proud to have the opportunity to partner with you as we embark on one of the biggest and most exciting projects in our City's history: O'Hare 21. This historic plan, a collaboration of the City of Chicago and our airline partners, will transform O'Hare with new facilities and modern infrastructure that further increases Chicago's connection to the world.

One of the primary avenues we have for lifting up and improving Chicagoland communities is by advocating for policies that empower small-, minority-, women-, and veteran-owned businesses, as well as those owned by people with disabilities. Through our unprecedented airport capital programs, we have a unique opportunity to put these policies and programs to work for all of our communities.

O'Hare serves more than 260 destinations around the world and is ranked number one in North America and third worldwide for connectivity. O'Hare is also the busiest airport in the world in terms of aircraft operations, with more than 900,000 flights moving 83 million passengers a year through the airport. Not to be outdone, Midway Airport serves more than 22 million passengers annually – meaning more than 105 million travelers use Chicago's airports every year.

By almost any metric you choose, Chicago's airports are booming, and there's never been a better time for a capital investment like O'Hare 21. The \$8.5 billion program is critical to the O'Hare's long-term viability, not to mention Chicago's standing as a destination and hub for commerce and tourism. By working together to deliver the airport of tomorrow, we will create economic opportunity for our communities while furthering momentum behind Chicago as a global leader in air travel.

This program represents an unprecedented opportunity for local participation, including contracting opportunities at all levels and tens of thousands of jobs. CDA is putting a priority on leveraging the scale and scope of this historic project so that businesses throughout Chicago and the Chicagoland area have the opportunity to participate in and benefit from O'Hare 21 and Midway's ongoing capital improvements. This emphasis on inclusion and empowering communities will foster economic growth in the region for years to come.

O'Hare and Midway are catalysts for growth for Chicago's 77 neighborhoods – and the entire region. I have the privilege of knowing firsthand just how hard-working and innovating our thriving CDA community is, and I'm thrilled at the prospect of having you onboard as a new O'Hare takes flight.

Sincerely,  
Jamie L. Rhee  
Commissioner  
Chicago Department of Aviation

## DEFINITIONS

(DPS)	Department of Procurement Services
(SBA)	Small Business Administration
(SBI)	Small Business Initiative
(SBI-I)	Small Business Initiative for projects estimated between \$2M and \$3M
(SBI-II)	Small Business Initiative for projects estimated below \$2M
(MBI)	Mid-Size Business Initiative
(MBI-1)	Mid-Size Business Initiative for projects estimated between \$10M and \$20M
(MBI-2)	Mid-Size Business Initiative for projects estimated between \$3M and \$10M

### Small Business Initiative (SBI)

- Exclusive to small businesses and limited to construction projects that are under \$3 million in total cost.
- Divided into two tiers:
  - SBI-I** – projects that are between \$2 million and \$3 million in total cost. In order to be eligible to bid on an SBI I project, firms must be:
    - (1) no larger than the SBA size standards per NAICS code, and
    - (2) at least 51% owned by one or more individuals whose personal net worth does not the limits set forth in Section 2-92-670 of the Municipal Code of Chicago (MCC).
  - SBI-II** – projects that are less than \$2 million in total cost. In order to be eligible to bid on an SBI II project, firms must be:
    - (1) no larger than ½ the SBA size standards per NAICS code, and
    - (2) at least 51% owned by one or more individuals whose personal net worth is not more than 1/2 the limits set forth in Section 2-92-670 of the MCC.

### Mid-Size Business Initiative (MBI)

- Exclusive to small and mid-sized local (six counties) businesses and limited to construction projects that are between \$3-20 million.
- Divided into two tiers:
  - MBI-1** – projects between \$10-20 million in total cost. In order to be eligible to bid on an MBI-1 project, firms must be:
    - (1) no larger than two times the SBA size standards per NAICS code, and
    - (2) at least 51% owned by one or more individuals whose personal net worth is not more than two times the limits set forth in Section 2-92-670 of the MCC.
  - MBI-2** – projects between \$3-10 million in total cost. In order to in total cost. In order to be eligible to bid on an MBI-1 project, firms must be:
    - (1) no larger than 1½ times the SBA size standards per NAICS code, and
    - (2) at least 51% owned by one or more individuals whose personal net worth is not more than 1½ times the limits set forth in Section 2-92-670 of the MCC.

### Target Market Program

- Target Market was created to offer exclusive opportunities for MBE/WBEs on non-construction contracts, including contracts for professional services, such as Architecture, Engineers, or IT, work services, such as janitorial services and landscaping services, and commodities.
- Allows prime level opportunities for MBE and WBEs.

# DETAIL OF CONSTRUCTION OPPORTUNITIES

## O'Hare Residential Sound Insulation Program Phase 17 (131 Historical Homes) Bid Package 3

Contract Type: **Construction**

Delivery Method: **Competitive Bid**

Alterations and modifications of approximately one hundred and thirty-one (131) historical homes in the area surrounding O'Hare ("Homes"). The majority of the Homes in this contract will be single-family and multi-family homes located in Chicago and Park Ridge. There may also be single-family and multi-family homes in other communities.

**PROCUREMENT**

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$5M - \$10M

## O'Hare Residential Sound Insulation Program Phase 18A (225 Homes)

Contract Type: **Construction**

Delivery Method: **Competitive Bid**

Alterations and modifications of approximately two hundred and fifty (225) dwelling units in the area surrounding O'Hare ("Homes"). The majority of the Homes in this contract will be single-family and multi-family homes located in Chicago and Park Ridge. There may also be single-family and multi-family homes in other communities.

**PROCUREMENT**

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$5M - \$10M

## Replace Passenger and Freight Elevators in H&R Building

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Complete removal of existing freight elevator, installation of new elevators with 25,000 lb. capacity in existing shaft and one 4,000 lb. capacity service/passenger elevator in new location.

**PROCUREMENT**

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$1M - \$2M

## O'Hare Residential Sound Insulation Program Phase 18B (175 Homes)

Contract Type: **Construction**

Delivery Method: **Competitive Bid**

Alterations and modifications of approximately two hundred and eighty (175) dwelling units in the area surrounding O'Hare ("Homes"). The majority of the Homes in this contract will be single-family and multi-family homes located in Chicago and Park Ridge. There may also be single-family and multi-family homes in other communities.

**PROCUREMENT**

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$5M - \$10M

## O'Hare Residential Sound Insulation Program Phase 19A (250 Homes)

Contract Type: **Construction**

Delivery Method: **Competitive Bid**

Alterations and modifications of approximately two hundred and fifty (250) dwelling units in the area surrounding O'Hare ("Homes"). The majority of the Homes in this contract will be single-family and multi-family homes located in Chicago and Park Ridge. There may also be single-family and multi-family homes in other communities.

### PROCUREMENT

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$5M - \$10M

## O'Hare Residential Sound Insulation Program Phase 19B (250 Homes)

Contract Type: **Construction**

Delivery Method: **Competitive Bid**

Alterations and modifications of approximately two hundred and fifty (250) dwelling units in the area surrounding O'Hare ("Homes"). The majority of the Homes in this contract will be single-family and multi-family homes located in Chicago and Park Ridge. There may also be single-family and multi-family homes in other communities.

### PROCUREMENT

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$5M - \$10M

## O'Hare Residential Sound Insulation Program Phase 19C (250 Homes)

Contract Type: **Construction**

Delivery Method: **Competitive Bid**

Alterations and modifications of approximately two hundred and fifty (250) dwelling units in the area surrounding O'Hare ("Homes"). The majority of the Homes in this contract will be single-family and multi-family homes located in Chicago and Park Ridge. There may also be single-family and multi-family homes in other communities.

### PROCUREMENT

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$5M - \$10M

## O'Hare Residential Sound Insulation Program Phase 19D (381 Homes)

Contract Type: **Construction**

Delivery Method: **Competitive Bid**

Alterations and modifications of approximately three hundred and eighty-one (381) dwelling units in the area surrounding O'Hare ("Homes"). The majority of the Homes in this contract will be single-family and multi-family homes located in Chicago and Park Ridge. There may also be single-family and multi-family homes in other communities.

### PROCUREMENT

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$10M - \$20M

## Domestic Water Pump Control Upgrades at H&R Building

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Upgrades to the existing domestic water controls systems, including upgrades of the three reservoirs, three fill pumps and three distribution pumps. Scope also includes the installation of variable speed pump controls, piping, automatic control valves, direct digital controls, control devices, sensors, and electric power.

**PROCUREMENT**

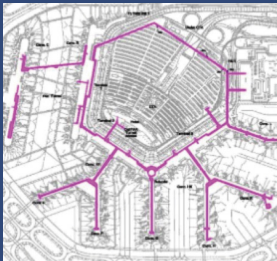

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$1M - \$2M

## Ring Tunnel Exhaust System

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Upgrades to the existing exhaust fan system in the ring utility tunnel.

**PROCUREMENT**

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$10M - \$20M

## Terminal Building ADA

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

ADA improvements in and adjacent to the terminal buildings to incorporate current compliance measures as identified by FAA and the ADA standards for accessible design.

**PROCUREMENT**

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$3M - \$5M

## 90" JAWA Relocation

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Installation of a by-pass 48-inch water main, new 48-inch Chicago Department of Water Management water main, new 90-inch Joint Action Water Agency (JAWA) water main, two 90-inch hot taps, and other associated water main infrastructure along I-90.

**PROCUREMENT**

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: Over \$20M

## Spine Road Airside Relocation

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Upgrades and conversion of a section of Spine Road to an airside roadway, which will include improvement of the traffic patterns along the eastern perimeter of the airfield, a widened travel way, and a larger area for snow removal equipment storage. Scope includes replacement of sections of deficient pavement and relocation a section of the existing AOA fence to an alignment east of Spine Road.

### PROCUREMENT

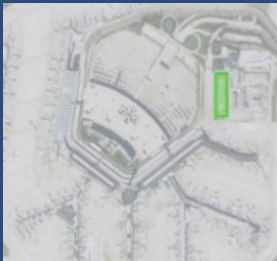

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$5M - \$10M

## Heating and Refrigeration Ventilation and Pressurization

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Upgrade of ventilation and pressurization system to augment and replace parts of the existing Heating and Refrigeration Building ventilation systems.

### PROCUREMENT

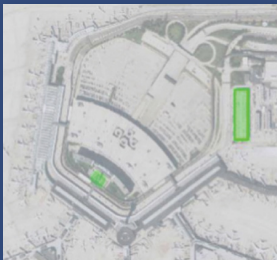

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$2M - \$3M

## Upgrade Domestic Water Converters in H&R Plant & Operations Tower

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Upgrades to the existing domestic water converters in the Heating and Refrigeration Plant and Operations Tower. The system will be upgraded utilizing a combination of low temperature water to domestic hot water double-wall convertors and electric water heaters to generate domestic hot water.

### PROCUREMENT

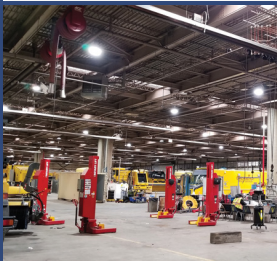

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$500K-\$1M

## Airport Maintenance Center Building Renovations

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Renovations to the existing Airport Maintenance Center building to ensure current code compliance. Items to be addressed include carbon monoxide sensors, exhaust fans and dampers, oil and hazmat storage upgrades, battery room upgrades, and other building code compliance throughout the facility.

### PROCUREMENT

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$10M - \$20M

## Guardbooth Replacement at Terminals

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Replacement of three guardbooths, one at each of Posts 7, 8, and 10. Scope will include concrete work to install new islands, conduit for communications and electricity, installation of the new booths and bollards.

**PROCUREMENT**

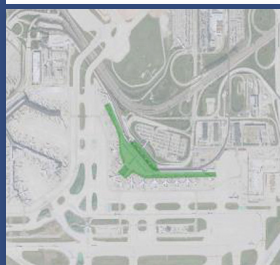

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$2M - \$3M

## T5 Building ADA Improvements

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

ADA improvements in and adjacent to the terminal building to incorporate current compliance measures as identified by FAA and the ADA standards for accessible design.

**PROCUREMENT**

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: \$500K-\$1M

## Taxiway LL Phase II Extension

Contract Type: **Construction**

Delivery Method: **Construction Manager-at-Risk**

New pavement to extend Taxiway LL between Taxiway EE and Taxiway Y; demolition of existing Taxiway N pavement and its relocation to previously constructed pavement to the south; installation of new airfield lighting and markings; and construction of new shoulders where necessary.

**PROCUREMENT**

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: Over \$20M

## Runway 10L-28R Rehabilitation

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Milling, asphalt overlay, pavement grooving, lighting adjustments, and markings of approximately 188,000 square yards of Runway 10L-28R and taxiways within the Runway Safety Area. Work will be restricted to bituminous asphalt pavements. Construction work will be scheduled to comply with airfield operational requirements.

**PROCUREMENT**

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: Over \$20M

## Terminals 1 and 3 Back-Up Heat Exchanger Pump

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Replacement of back-up heat exchanger systems for Terminal 1 and Terminal 3. Each terminal work scope will be performed in a separate phase. Scope includes installation of variable speed pumps, piping, valves, controls, control devices, sensors and electric power.

PROCUREMENT

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: **\$3M - \$5M**

## Fire Hydrant & Backflow Prevention Improvements

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Reduction in the lengths of stagnant water lines leading to fire hydrants, both landside and airside, including removal, relocation of lopping back existing hydrants into the main. Work may include new fire main and backflow prevention.

PROCUREMENT

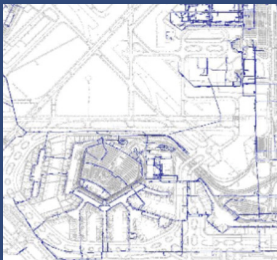

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: **\$2M - \$3M**

## Water Main Automatic Meter Readers

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Installation or replacement of automatic water main meter reader systems at all water main connections that serve O'Hare terminals and facilities. Updated meter reading systems will match demands with current water main infrastructure and provide a standard requirement for future upgrades.

PROCUREMENT

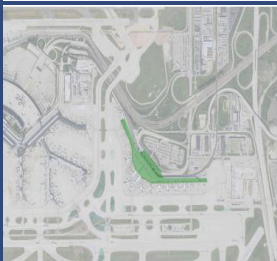

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: **\$2M - \$3M**

## T1 B/C Terminal Apron Level Exterior Repairs

Contract Type: **Construction**

Delivery Method: **Design-Bid-Build**

Masonry repairs including tuckpointing, partial and full brick repair/replacement along the exterior LL walls of Terminal 1 Concourses B & C.

PROCUREMENT

2020	2021	2022	2023
------	------	------	------

Estimated Contract Amount: **\$1M - \$2M**
