Alton	Arthur	arthur@safecs.com	Web Site Design	<p>Students will learn & publish their own websites.</p> <p>Students will build HTML pages with text, links, images, tables and forms. Learn to add STYLE with CSS3 for colors, backgrounds, formatting, page layout, and simple animations. Learn how JavaScript works, and why the language enhances web design.</p> <p>Students will learn skills that will help them throughout high school and college, and even into their full time career.</p> <p>Every class is hands on with downloads, exercises, and fun!</p>	5th - High School	475
Alton	Arthur	arthur@safecs.com	Introduction to Computer Programming	<p>Introduction to Computer Programming with Game Development using JavaScript, HTML5, and Dev. Framework.</p> <p>Want to design your own games to run on both desktops and mobile devices.</p> <p>Students will begin by learning the fundamentals of HTML, JavaScript followed by Sprites and how to build your game world. Learn through examples.</p> <p>Beginner friendly class:</p> <p>Requirements: Own & have access to a PC or MAC Notebook Computer (We will install: free Web Server - for Development Only) Simple Computer Skills: typing , mouse...</p>	5th - High School	475
Alton	Arthur	arthur@safecs.com	Coding for Kids	<p>Students will begin by learning "Touch Typing" using the Typing Instructor(P) edition. Starting with the basic hand positions & posture, each class includes fun learning exercises, and skills are reinforced through classroom typing games.</p> <p>Additional topics:</p> <ul style="list-style-type: none"> - how computers work and are fun to learn, - fundamentals of programming, - flow charts - numbering systems - basic algorithms <p>We will introduce students to the syntax of computer languages through JavaScript, and begin some of the basics of coding.</p> <p>Requirements: Students will need their own Notebook PC (Windows or MAC) - for each class.</p>	1st/2nd, 3rd/4th	425

Alton	Arthur	arthur@safecs.com	Robotics 1	<p>Robotics 1 - introduces students to the wonderful world of Robotics.</p> <p>What are today's robots and how do they effect the world!</p> <p>Students will learn:</p> <ul style="list-style-type: none"> - Safety, - Robotic Components, - Mechanics, - importance of 3-D printers, - Motors, - Design, - Electronics, - Motor Controller vs Computer Module, - Programming, <p>Build your own robot, and have fun...</p>	3rd/ - 8th	475
Alton	Arthur	arthur@safecs.com	Robotics 2	<p>Robotics 2 - students learn more concepts and expand there knowledge about the wonderful world of Robotics.</p> <p>What are today's robots and how do they effect the world!</p> <p>Students will learn:</p> <ul style="list-style-type: none"> - Safety, - Computer Aid Design of Robotic Parts, - Robotic Components and integration, - Electronics, - Mechanics and part interactions, - Python Block Coding, - Computers Controllers and connectivity, - Bread Board circuits, - Fun, Game style learning <p>Be part of a Robotic Team, Build your Robot, and have Fun!</p>	7th - High School	475
Alton	Krista	Kristaalton@yahoo.com	Chess 1	<p>Chess 1 is an introductory class to the basics of chess. Chess instruction is very beneficial for young developing brains. Chess helps students with focusing, pattern recognition, problem solving, and helps boosts math scores. Kids enjoy this fun interactive class without realizing all the great tools they are learning. Chess instruction includes common chess openings, mid-game strategies & tactics, mating patterns, tournament strategies, notation and more. Students are encouraged to participate with their school team in local chess tournaments against students from other schools. The Trinity Titans Chess Team have won many trophies in the past 3 years. To learn more about our chess company please check out our website www.alton4chess.com. Equipment required is an United States Chess Federation chess set (board, pieces, & matching carrying bag). This equipment can be purchased by the instructor for \$25.00</p>	K-12	420

Alton	Krista	Kristaalton@yahoo.com	Chess 2	<p>This Chess 2 class continues to go deeper into chess strategies & tactics. As students develop their skills in chess they maximize their potential for problem solving skills. Students are encouraged to participate in local competitions. Playing in tournaments grows kids in their maturity level. Chess helps kids make new friends and be part of the school team. To check out more about our chess company go to www.alton4chess.com. Equipment required is an United States Chess Federation chess set (board, pieces, and matching carrying bag) for \$25.00 and a chess notation book for \$5.00. All equipment can be purchased from the instructor during the first week of class.</p>	2-12	420

Baron	Marlene	baronhomeschool@gmail.com	ASL 1 for High School	<p style="text-align: center;">ASL 1 for High School Instructor: Marlene Baron 813-817-7590, email: baronhomeschool@gmail.com</p> <p>Prerequisites: None **Credit: 1 **Students will earn 1 of 2 required foreign language credits needed for graduation. Students in 8th grade may count this course for high school credit.</p> <p>American Sign Language, or ASL, is the 3rd most used language in the United States. It is a real language and has its own grammatical rules, word order and slang expressions. It's not simply English expressed through gestures. Colleges are increasingly accepting ASL as the foreign language high school credit requirement.</p> <p style="text-align: center;">Students will:</p> <ul style="list-style-type: none"> •Build basic conversation vocabulary •Develop fingerspelling fluidity as they learn the alphabet <ul style="list-style-type: none"> •Learn categories of words: family, colors, food, etc. •Learn how to form basic sentences •Learn how to communicate without using one's voice •Learn basic history of deaf culture and etiquette and acquire a greater understanding of deaf people. •Learn proficiency of physical and facial communication •Be required to participate in presentations in front of the class. <p style="text-align: center;">Homework and quizzes will be assigned with due dates. Grading Rubric: 25% Quizzes & Tests, 25% Class Participation, 25% Projects, 25% Homework</p> <p>**Students must have one of these: Smart Phone/Tablet/Laptop/Desktop to take photos, record videos and playback/access videos, for homework assignments. Weekly emails will be sent for parents to read for ongoing information.</p> <p>Materials used will be a variety of online programs, videos, worksheets, in-class interactions, required reading of the book, "Inside Deaf Culture", and most likely a private, closed, class-only, Facebook Group. More details about this will follow. Also, there will be one or two "field trips" where we attend Deaf Socials to give the students a chance to interact with the Deaf and others proficient in sign and/or learning.</p> <p>**This is a high school class and in order for the student to earn a full legitimate credit, they must put in 120-150 hours for the duration of the course. This is accomplished with 4-5 hours a week which can be accumulated through watching videos, reading assignments, practicing, class time, FaceBook interactions with other classmates and Deaf Socials. The "logging hours" method is best to keep track of hours. HSLDA link regarding earning a high school credit: https://hslida.org/content/elert/archive/elertarchive.aspx?7642.</p> <p style="text-align: center;">\$25 Curriculum/Supply Fee included in cost</p>	8th - 12th grade only	500
-------	---------	---------------------------	-----------------------	---	-----------------------	-----

Baron	Marlene	baronhomeschool@gmail.com	Intermediate Sign Language for Upper Elementary	<p style="text-align: center;">Intermediate Sign Language for Upper Elementary Instructor: Marlene Baron</p> <p style="text-align: center;">Prerequisite: Beginner Sign Language class</p> <p>ASL is a real language and has its own grammatical rules, word order and slang expressions. Basic history of deaf culture and etiquette will be discussed for the students to have a greater understanding of deaf people. Colleges are increasingly accepting ASL as the foreign language high school credit requirement.</p> <p>Get ready to continue, “talking with your hands” and truly communicate in this fun, engaging, expressive intermediate class. The class is for grades 4-7th grade or ages 8-12. Your student needs to have completed last year’s beginner class with me or another beginner level of some sort and ready to move ahead.</p> <p>Your child will review the basics of ASL; such as, fingerspelling, numbers and words previously learned in the Intro to Sign Language class. As we move forward, they will continue gaining new skills and vocabulary as new material and concepts are introduced. This will be accomplished through an ASL textbook*, Unit Study method, worksheets and DVDs.</p> <p style="text-align: center;">Songs and/or poems will be presented on holidays and designated days throughout the school year.</p> <p style="text-align: center;">**Attendance and participation in the class is vital for your child to keep up with the weekly vocabulary. Weekly homework will be assigned. Parental involvement will help your child succeed. Signing takes practice!</p> <p style="text-align: center;">*The required textbook is Sign Language for Everyone: A Basic Course in Communication with the Deaf, by Dr. Cathy Rice. The books will be ordered by TEACH and handed out at the start of the August 2019 semester. A \$25 supply fee is required. Grades will be given upon request by the parent.</p>	4th - 7th grade or ages 8-12	400

Borders	Anne	stborders@msn.com	Early Ed. Math	Math can be FUN! All Florida kindergarten math standards will be covered in this class. This math course is hands on with many math manipulatives and FUN activities to get your child excited about math. Skills that will be covered include sorting, patterns, shapes, addition, subtraction, measuring, data, problem solving, comparing, ordering numbers, time, money and more. There will be no grades, homework or supplies needed for this course. *A supply fee of \$20 is required for student materials that the teacher will provide throughout the year.	PK/K	425
Borders	Anne	stborders@msn.com	Early Ed. Reading Aloud	Reading can be FUN! This course uses the Dialogic Reading approach. It is an interactive shared picture book reading practice designed to enhance young children's language and literacy skills. Reading-aloud expands vocabulary, improves comprehension, strengthens imagination, increases the attention span, creates a lifetime interest in reading and much more. A craft aligned with the read-aloud or reading related activity will be part of this class each week. There will be no grades, homework or supplies needed for this course. *A supply fee of \$20 is required for student materials that the teacher will provide throughout the year.	PK/K	425
Carney	Janet	wordjanet@gmail.com	Writing and Grammar	<p>Class Description:</p> <p>First and second grade writing builds on three fundamental objectives. First objective is narration: putting ideas into words. After hearing or reading a story, students practice telling the story using their own words to express their thoughts in complete sentences.</p> <p>The second objective is mastering copy work: putting words on paper. This task includes letter formation, spacing, capitalization and punctuation.</p> <p>The third objective is dictation: holding in memory sentences just heard. In addition, students learn to remember how the words looked on paper along with correct capitalization and punctuation.</p> <p>Together, copy work and dictation work as a complex process for the young writer, employing both physical and mental skills: observation, letter formation, listening, memorization, capitalization, and punctuation.</p> <p>Putting ideas into words that express complete thoughts and then writing those thoughts on paper are basics of good writing.</p> <p>One of the outstanding qualities of the Writing With Ease curriculum is the excellent source material used for the readings. Selections come from classical literature, history, and science. Not only do the readings impart knowledge, they spark interest and inspire curiosity.</p> <p>Class Information:</p> <p>Recommended: Since reading and writing are correlative skills, Experiencing Literature (grades one and two) is recommended with this course.</p> <p>BOOK: The Complete Writer: Level Two Workbook for Writing with Ease, Susan Wise Bauer, ISBN-13: 978-1933339290</p>	1st/2nd	475

Carney	Janet	wordjanet@gmail.com	Literature 5th/6th	<p>Course Description: Appreciating Literature takes students beyond simple plot comprehension into deeper understanding of the book through: lively discussion, debate, and logical predictions.</p> <p>Additionally, this course builds appreciation of classical literature through awareness of literary elements such as figurative language, diction, character and plot development. Moreover, students learn the subtle power of words. The focus of the course, however, is discovering how literary elements integrate to create interesting stories. Knowing the composite of many elements contribute to the author's purpose allows students to read with the eye of a critical analyst.</p> <p>To further enrich the literature experience, students research the authors they read to help them discern perspectives and prejudices informing the author's work. This scholarly preparation enhances critical thinking and meaningful discussion.</p> <p>Throughout the course, students learn the fundamentals of literary analysis. Each semester they analyze a book and submit a literary analysis appropriate to their grade level.</p> <p>Appreciating Literature encourages students to actively think their way through a book rather than passively accept a story without examination.</p> <p>Ultimate objectives of this course are confident readers and critical thinkers.</p> <p>~~~~~</p> <p>Class Information: Students receive a packet with a weekly assignment schedule, vocabulary list and project paper. Assignments are intended for daily study; however, they are guidelines not requirements. The packets offer a robust literature program for home school students and promote a study discipline for long-term learning.</p> <p>A master book list will be posted on the Trinity web page at the beginning of the school year. Students may either buy or borrow books from a library.</p>	5th/6th	475
--------	-------	---------------------	--------------------	--	---------	-----

Carney	Janet	wordjanet@gmail.com	Literature 3rd/4th	<p>Course Description: Experiencing Literature exposes students to the rich language and enduring truths found in classical literature. Classes abound in lively discussions on interesting topics that encourage the exchange of ideas and the birth of new revelation! While students are getting lost in the adventure of a favorite story, they are simultaneously building vocabulary, increasing comprehension, and developing critical and analytical thinking skills.</p> <p>In addition to training the mind, Experiencing Literature focuses on building the spirit. The word of God comes alive as students learn to perceive the relationship between scriptural principles and hidden truths imbedded in the stories. The unique benefit of Experiencing Literature is experiencing the power of God's word in each book as the story unfolds.</p> <p>Class Information: Students receive a packet for each book with a weekly assignment schedule, vocabulary list and project paper. Assignments are intended for daily study; however, they are guidelines, not requirements. The packets offer a robust literature program for home school students and promote a study discipline for long-term learning.</p> <p>Students may either buy or borrow books from library.</p>	3rd/4th	475
Carney	Janet	wordjanet@gmail.com	Literature 7th/8th	<p>Course Description: Learning through Literature takes students beyond cursory comprehension into deeper understanding of a book by examining elements that create a whole story. Moreover, they gain new insights through: lively discussion, debate, critical thinking, and logical predictions.</p> <p>In addition to connecting story events and understanding character roles, students also learn to appreciate the effects of other story elements such as setting, mood, and tone. Moreover, they develop appreciation for the subtle power of words. This reading awareness empowers students to see how literary elements work together in advancing an author's themes.</p> <p>Through guided reading, students perceive literary terms such as simile, metaphor, hyperbole, alliteration and others as meaningful. Instead of words to define, terms become tools that sharpen reading comprehension and develop literature appreciation.</p> <p>As students read actively, they become engaged participants rather than passive spectators. They can distinguish between average and exceptional literature, and they can articulate why one author wins their approval and another does not.</p> <p>While students enjoy the benefits of classical literature, they simultaneously increase vocabulary and improve reading comprehension.</p> <p>Ultimate objectives for Learning Through Literature are life-long readers and critical thinkers.</p>	7th/8th	475

Carney	Janet	wordjanet@gmail.com	Literature PreK - 2nd	<p>Course Description: Literature Alive exposes students to the rich language and enduring truths found in classical literature. Books are carefully selected to promote critical thinking, oral and written language development. Vocabulary, sentence structure and writing style are considered in each literature selection along with story content, age appropriateness, and student interest.</p> <p>Reading aloud is a key element of the curriculum. Students engage with stories through discussion and role-playing, making them active participants rather than passive bystanders, merely observing the action from the sidelines. With invested readers the happy outcome is lively discussion and, sometimes, even rigorous debate.</p> <p>Literature Alive encourages the exchange of ideas and inspires the birth of new revelation! As students get lost in the adventure of a favorite book, they simultaneously build vocabulary, increase comprehension, and develop analytical thinking skills, which are lifetime learning tools.</p> <p>Literature Alive also encompasses poetry and book illustrations. Children recite and interpret poetry through choral speaking, dance, and other kinesthetic activities. They also learn to interpret and appreciate the beauty of book art.</p> <p>Beyond training the mind, Literature Alive focuses on building the spirit. The word of God comes alive as students connect scriptural truths imbedded in the stories.</p> <p style="text-align: center;">Literature Alive: It's more than a story!</p> <p>Book Information: Students receive a packet for each book with a weekly assignment schedule, vocabulary list and project paper. Assignments are intended for daily study; however, they are guidelines not requirements. The packets are designed to offer a robust literature program for home school students and promote a study discipline.</p> <p>A master book list is posted on Trinity web page at the beginning of the year. Students may either buy or borrow books from a library.</p>	PK/K, 1st/2nd	475
--------	-------	---------------------	-----------------------	--	------------------	-----

Carney	Janet	wordjanet@gmail.com	Study Skills and Root Words	<p>Course Description: Word Power provides fundamental building blocks for vocabulary and spelling. Greek and Latin roots, suffixes, and prefixes are the building blocks from which most English words are derived. Learning a single Greek or Latin root opens the door to understanding multiple English words. These word elements empower students to expand their vocabularies and improve spelling.</p> <p>Additionally, Word Power presents the etymology of words, the language of origin. Knowing the origin of a word greatly enriches its meaning. This knowledge also informs the student of correct word usage. Moreover, etymology is a helpful tool in learning the spelling of words.</p> <p>Finally, Word Power enhances reading comprehension through vocabulary development, which is the number one factor in reading comprehension.</p> <p>This class also includes a series of study techniques and habits to empower student learning. Topics include: Learning Modes, Time Management, Process Goals, and Effective Study Habits.</p> <p>Book Information: Book Title: Word Roots Level 1 Author: Cherie A. Plant ISBN: 978-1-60144-671-8 Students need to purchase textbook.</p>	7th - High School	575
--------	-------	---------------------	-----------------------------	--	-------------------	-----

Carney	Janet	wordjanet@gmail.com	Writing With Skill Level 1, Part 1	<p>Course Description: Writing with Skill Level 1 Part 1 is a classical approach to writing composition, giving students the skills to write with clarity and confidence. Integration of writing with academic subjects such as history, science, literature, and poetry is an important strength of the course. Another strength is the focus on the fundamental writing skills of outlining, and summarizing. To further prepare students for advanced academic writing, students practice a variety of writing forms including chronological narratives, biographical sketches, and descriptions. Writing with Skill Level I lays a strong foundation for writing across the curriculum.</p> <p>Units one through sixteen are covered in Part 1; second half of book is covered the following year, in Part 2.</p> <p>Book Information Book: Writing with Skill Student Workbook Level 1 Author: Susan Wise Bauer ISBN:10: 1933339535 or 13: 978-1933339535 Recommended: Instructor Text: ISBN-10: 1933339527 or ISBN-13: 978-1933339528</p> <hr/> <p>Course Description: Analytical Grammar Part 1 is a systematic approach to mastering the fundamentals of grammar. The course builds concept upon concept. Each unit includes study notes, practice exercises, and diagrams. As students progress through the course, they learn the elements of grammar and how they integrate into one cohesive whole. In addition to clear instruction and the visual analysis of diagrams, weekly review is incorporated into each unit for memory retention.</p> <p>AG consists of thirty-five lessons covering parts of speech, clauses, phrases, rules for punctuation and usage. AG Part 1 covers the first section of the book. Second half is covered the next year. ~~</p> <p>Book Information Book: Analytical Grammar: a systematic approach to language mastery Author: R. Robin Finley ASIN: B008TVX08Q LINK</p> <p>Required: Textbook, Index cards (5" by 8"), Ruler, (2) Pocket Folders Recommended: Analytical Grammar: a systematic approach to language mastery (Teacher Book), ASIN: B003X8VPIC</p>	5th /6th	625
--------	-------	---------------------	------------------------------------	---	----------	-----

Carney	Janet	wordjanet@gmail.com	Writing With Skill Level 1 Part 2	<p>Course Description: Writing with Skill Level 1 Part 2 is a classical approach to writing composition, training students to write with clarity and confidence. An important strength of the course is the practical approach of writing across the curriculum. Students have repeated opportunities to practice writing in the content areas of history, science, literature, and poetry.</p> <p>To further prepare students for academic writing, they also practice a variety of writing forms including chronological narrative, biographical sketch, and description.</p> <p>One of the most important benefits of the course, however, is the focus on fundamental learning skills such as summarizing, outlining, and note-taking. Writing with Skill Level I, Part 2 lays a solid foundation for subsequent writing classes.</p> <p>Book Information: Book: Writing with Skill Student Workbook Level 1 Author: Susan Wise Bauer ISBN:10: 1933339535 or 13: 978-1933339535 Link Required: Textbook, (1) Three-ring binder, (2) Pocket folders Roget's International Thesaurus (most recent version is recommended)</p> <p>Recommended: Instructor Text: ISBN-10: 1933339527 or ISBN-13: 978-1933339528</p> <hr/> <p>AG (Part 2)</p> <p>Course Description: Analytical Grammar is a systematic approach to mastering the fundamentals of grammar. --------	-------	---------------------	-----------------------------------	--	---------	-----

Carney	Janet	wordjanet@gmail.com	Writing II	<p>Course Description: Writing With Skill Level 2 is a comprehensive, systematic approach to writing composition. Included in this course are study skills necessary for academic success: summarizing, outlining, and note taking. In preparation for writing across the curriculum, students also practice writing patterns applicable to history, science, and literature. A final benefit of the course is the challenging work of literary analysis and research, both involving critical thinking skills for success in high school and college.</p> <p>Training students to learn independently, write effectively, and think critically are the objectives of Writing with Skill Level 2.</p> <p style="text-align: center;">Book Information Textbook: Writing With Skill: Student Workbook Level 2 Author: Susan Wise Bauer Student Edition: ISBN 978-1-933339-61-0 Recommended: Writing With Skill: Instructor Text Level 2 Author: Susan Wise Bauer Teacher Edition: 978-1-933339-60-3</p>	High School	575
Carney	Janet	wordjanet@gmail.com	Writing and Grammar	<p>This course builds on two fundamental objectives. First objective is narration: putting ideas into words. After hearing or reading a story, students practice telling the story using their own words to express their thoughts in complete sentences.</p> <p>Second objective is copy work/dictation. Copy work guides trains to observe words on paper: letter formation, spacing, capitalization and punctuation while dictation challenges students to hold sentences in memory. These skills enable them to recall how the sentences look on paper along with correct capitalization and punctuation. Step two is a complex process for a young writer since it involves both mental and physical skills: remembering and writing.</p> <p>The basic skills of expressing ideas in complete sentences and transferring them to paper are initial stages in good writing. At level three, students have the additional task of pulling together steps one and two. Instead of writing from a prepared narration, students begin to use their own narrations as part of their dictation exercises.</p> <p>The curriculum focus is developing fundamental writing skills. Once mastered, students advance in the writing process with the confidence and skills to succeed.</p> <p>Susan Wise Bauer is recognized for her excellent choice of source material. Since readings include excerpts from classical literature, history, and science, her selections promote writing across the curriculum.</p> <p style="text-align: center;">~~~~~ BOOK: The Complete Writer: Level Three Workbook for Writing with Ease Susan Wise Bauer, ISBN-13: 978-1933339306</p> <p>Recommended: Since reading and writing are correlative skills, Experiencing Literature (grades three and four) is recommended with this course.</p>	3rd/4th	475

Carney	Janet	wordjanet@gmail.com	College Prep Writing	<p style="text-align: center;">Course Description:</p> <p>The College Preparatory Writing course covers basic skills in grammar, punctuation, and sentence structure through readings, paragraphs, and short essays. It prepares students for successful completion of college-level writing courses.</p> <p>The basic principles of effective writing are presented and woven throughout the course: an introduction to writing, the writing process, patterns of organization, sentence skills, and four criteria for revision and editing.</p> <p>Students learn that writing is not a formula; rather, it is the logical cohesion of facts, ideas, opinion and imagination. To facilitate the writing process, students share and discuss ideas, read their compositions aloud, and receive constructive feed back from classmates. Collaboration has proven to be highly successful in student learning, and it is a hallmark of this course.</p> <p>Notify teacher two weeks before end of first semester and end of second semester for students who request a grade.</p>	High School	575
--------	-------	---------------------	----------------------	--	-------------	-----

Carney	Janet	wordjanet@gmail.com	High School Literature	<p>Reflection is a key element of Critical Thinking Through Literature. Students keep literary journals and record important points, insights, and thoughts generated by their readings. Journals then become the spring- board for class discussion and debate.</p> <p>As students reflect on themes, they gain deeper insight to conflicts and challenges facing humanity. Such awareness increases their understanding and compassion, especially for people of different times, beliefs and cultures. Literature is a transport to a world teeming with divergent views, unexplored possibilities and foreign realities. Stepping outside the known and familiar boundaries of their experiences, students encounter new adventures and make new discoveries, expanding their world-view and adding richness to their life.</p> <p>Although this is not a writing class, students have opportunity to develop and support thesis statements with ideas and insights gained from literature. Moreover, the course challenges students to explore their own thoughts rather than conform to someone else's opinions. Empowering students with this freedom encourages them to think independently and take ownership for their beliefs.</p> <p>The best part about this literature course, however, is that it is not about right or wrong answers; we are not asking those kinds of questions! It's not about getting through a book; that's not our purpose. Instead, it's about getting into the book and learning how literature reveals truth about life, truth, people and very often truth about ourselves.</p> <p>Critical Thinking through Literature: It's inspiring; it's challenging; it's enlightening! Not only that, it's fun, and everyone has a voice and an opportunity to be heard!</p> <p>Course Information: Students receive a packet for each book with a weekly assignment schedule, vocabulary list and project paper. Assignments are intended for daily study; however, they are guidelines, not requirements. The packets offer a robust literature program for home school students and promote a study discipline for long-term learning.</p> <p>Students may either buy or borrow books from a library.</p>	High School	575
--------	-------	---------------------	------------------------	--	-------------	-----

Chen	Ping	pingcatbaby1@gmail.com	Art class	<p>1.The students will learn to use acrylic and watercolor to paint landscapes, people and animal portraits.</p> <p>2. Chen	Ping	pingcatbaby1@gmail.com	Chinese Language	<p>The book is written for use by US students culturally. It's designed for students learning Chinese as a second language, but also works for American born Chinese. It's very popular with both public schools, and private schools. Chinese Made Easy has available a workbook for each level, as well as flash cards for level 1 and 2. The Textbook comes with a CD and is a great value on the pricing. \$ 35 per set (text book and work book)</p> <p>Topics included in this series:</p> <ul style="list-style-type: none"> • Greetings • Classroom language • Personal introduction • Numbers and Dates • Countries and languages • Occupations and work places • Modes of transport • Colors and clothing • Daily routines • School subjects and facilities • Parts of the body and illness • Everyday articles • Stationary • Articles in the house • Animals • House and rooms <p>Why Use Chinese Made Easy for Kids?</p> <ul style="list-style-type: none"> • Learning Chinese materials presented in a fun, interesting way • The course features: Task-based learning coupled with a focus on form and function • A wide variety of texts and practice materials Up-to-date topics relevant to young students <ul style="list-style-type: none"> • Careful pacing for gradual progress in language skills • Clearly focused aims for each unit • Regular consolidation and reinforcement of Learning Chinese activities • Practical tasks and activities to practice use of Chinese • Highly attractive and colorful page designs 	1st and up	350
Chen	Ping	pingcatbaby1@gmail.com	Computer Graphic Design	<p>Computer graphic design combines skills in technology, business and art, using computer-generated images and words to create unique concepts and messages for publishing and advertising. Computer graphic design is everywhere in the modern world. You see it on street signs and in restaurants, television programs and magazines. You're seeing it right now as you read this. Computer graphic designers use technology to manipulate and combine words, images, color, typography and sound in order to elicit emotions and deliver messages to viewers. In this class the students will learn how to use Adobe Photoshop software to create picture images; how to design the signs, Ads, Flyers, Post cards, Greeting cards, Book covers, Billboards, Brochures, Banners, Logos, etc. You can use professional photography tools to turn your snapshots into works of art. Adjust, crop, remove objects, retouch, and repair old photos. Play with color, effects, and more to turn the ordinary into something extraordinary. And use the tools to do illustrations, paintings, and 3D artworks, animation art.....even the beginners can make something amazing.</p> <p>Requests: 1. Students need to bring a laptop computer. 2. Before come to the class need to download Adobe Photoshop CC software. The students need to go to adobe.com to choose the software payment plan, first week can try free trail, then need to do \$9.99 month plan.</p>	3rd and up	450

Danciger	Wendy	Danciger700@gmail.com	Odyssey of the Mind	<p>Odyssey of the Mind is the largest creative problem solving competition in the world! Students will find themselves incorporating math, science, reading, writing, art, theater, music, dance, story telling, cooperative learning, leadership skills, etc. into their creative solutions.</p> <p>Odyssey of the Mind begins at the local level. Schools join and form teams of up to 7 members each that are coached by an adult. The teams select a long term problem , develop a solution entirely on their own, and practice spontaneous problem solving. Hillsborough County Teams compete regionally, usually in the month of March at a high school in Brandon. Teams that place at regionals are invited to compete at the state level. Champions are then invited to compete in the annual Ofyssey of the Mind World Finals.</p> <p>Students who join this team need to be committed to attending and competing with his/her team in the regional competition. For more information go to www.odysseyofthemind.com or www.facebook.com/</p> <p>Materials needed are a 3 ring binder, notebook paper, and pens/pencils. Other supplies TBD. This is based on the "long term problem" each team selects to compete.</p> <p>Class is 1.5 hours/week and may need to meet more than once per week as we get closer to competition time.</p>	1st/2nd, 3rd/4th, 5th/6th, 7th/8th	650

Danciger	Wendy	Danciger700@gmail.com	Young Entrepreneurs	<p>Students will acquire foundational business concepts, learn economic and mathematic concepts, and apply those concepts to a new business idea. Real life examples are important to use when educating students. This course will take students through an entrepreneurial journey of creating their own business , producing a product or service, and marketing and selling to their peers. This course encompasses a variety of basic life skills such as money management, business development, marketing campaigns, interpersonal skills, and friendly competition.</p> <p>Entrepreneurs in the Tampa Bay Area will be invited to speak, fundraising events will be hosted by the class, and a field trip to Junior Achievement's Finance Park (TBD) will be scheduled in the second semester if there is a majority who are interested.</p> <p>Materials needed: 1" 3 ring binder Notebook paper Construction paper Pens/pencils Markers Glue stick Tape</p> <p>Laptop/tablet/smartphone for research and creating documents may be needed in class on occasion but isn't required.</p> <p>Curriculum resources: 1. Teen Entrepreneur Toolbox by Anthony O'Neal 2. Junior Achievement's Financial Planning for Teens 3. Better Than a Lemonade Stand! Small Business Ideas for Kids by Daryl Bernstein 4. How to Turn \$100 into \$1,000,000 by James McKenna and Jeanine Glista with Matt Fontaine.</p>	5th/6th, 7th/8th, High School	400

Danciger	Wendy	danciger700@gmail.com	High School Economics & Government	<p>This high school course will cover one semester of Economics and one semester of American Government. Each semester is worth 1/2 high school credit for a total of 1 high school credit. Grades will be given at the end of each semester upon request.</p> <p>Materials needed for this course are: 2" three ring binder, 6 dividers with pockets, notebook paper, pens/pencils, laptop/tablet/smartphone, the "Building on the American Heritage Series" workbook/study guide (\$12.95) - to purchase go to https://shop.wallbuilders.com/workbook-building-on-the-american-heritage-series-wbs06</p> <p>Curriculum is free of charge and will include "Building on the American Heritage Series" by David Barton and Rick Green - go to www.wallbuilders.com for more information, "The Documents of Freedom" by the Bill of Rights Institute- go to www.docsoffreedom.org for more information, and "Fish! How an Economy Grows" by the Moving Picture Institute and Passing Lane Films - go to www.fisheconomics.org for more information.</p> <p>These materials aim to help with the study of our economic and government system, and in the process they will often turn to the views of the Framers, both of the Constitution and of later amendments.</p> <p>In these materials, you will see some recurring themes. First, we will pay close attention to the views of the Founders—though not only to the views of the Founders. Second, we will consider the possible purposes of government. Government can help protect our individual rights—rights to life, to liberty, and to property. Third, we will often ask: How can the government have the “energy” (Alexander Hamilton’s term) needed to accomplish its purposes, without becoming too mighty and thus oppressive? Fourth, we will often talk not about what should be the right result in any particular controversy, but rather about who should decide the matter. Fifth, we will turn to something that the Founders recognized as foundational to a successful political system: what the Founders called the “virtue” of the people—their courage, their tolerance, their commitment to justice, their willingness to sacrifice and compromise for the common good, and their willingness to invest the time and energy into educating themselves about the pressing issues of the time. Without voters that have such virtue, there is no reason to think that the legislators elected by the voters will be honest, responsible, intelligent, and respectful of our rights.</p>	High School	475
----------	-------	-----------------------	------------------------------------	---	-------------	-----

Danciger	Wendy	danciger700@gmail.com	Famous Wars	<p>This class will focus on pivotal battles fought in major wars that have had a significant impact in world history. Events leading to war, reasons for fighting, allies and enemies, war strategies, tactics, technology, weapons, military leaders, geography, outcomes, and consequences and more will be studied and possibly re-enacted if students choose. We will begin our study with the Battle of Kadesh and then follow with the Greco-Persian Wars, the Battle of Gaugamela, 2nd Punic War, the Crusades, Mongol invasions, Hundred Years War, Byzantine-Ottoman Wars, Ottoman conquests, 30 years war, 7 years war, French/Napoleonic Wars, American Revolution, American Civil War, WWI, WWII, Vietnam War, and the Gulf War. The amount of time spent on each battle/war will be determined by the interest of the majority of the students in the class.</p> <p>Materials needed for class are 4 spiral bound notebooks (70 pages each), red, black, blue, and green pens, colored pencils, markers, 1 folder, and a laptop/tablet/smartphone occasionally in class. The following Magic Tree House Fact Tracker Books: Ancient Greece & the Olympics, Ancient Rome, Ninjas & Samurai (China Land of the Emperor's Great Wall), American Revolution, and WWII.</p> <p>Curriculum Resources you may want to purchase but aren't required to do so are: "Battles that Changed History" by DK, "The Illustrated Encyclopedia of Warfare from Ancient Egypt to Iraq" by DK, and "Battles that Changed History-Key Battles that Decided the Fate of Nations" by Rupert Butler. The first two books have beautiful illustrations. I like the last book for its concise yet thorough explanation of each battle.</p>	3rd/4th, 5th/6th, 7th/8th	400
Danciger	Wendy	danciger700@gmail.com	Folk Tales and Fairy Tales	<p>Children will learn the art of storytelling through reading classic folk and fairy tales. They will compare and contrast stories, learn about cultures around the world, retell stories through puppetry, plays, and illustrations, create lapbooks and stories of their own, participate in buddy reading activities, and most important students will develop a love and appreciation for reading.</p> <p>Materials needed for class are: file folders, construction paper, a case to hold artwork/lapbooks, crayons/markers, pencils, glue sticks, tape, printer paper/blank white paper.</p> <p>Some curriculum resources used will be Hans Christian Andersen's Fairy Tales, "A World Full of Animal Stories US: 50 favorite animal folk tales, myths, and legends" by Angela McAllister, "Five- Minute Stories: Over 50 Tales and Fables" by Cottage Door Press, "A Year Full of Stories: 52 Classic Stories from Around the World" by Angela McAllister, "The Classic Treasury of Aesop's Fables" by Don Daily, "Folk and Fairy Tale Easy Readers Parent Pack" by Liza Charlesworth, "First Little Readers Parent Pack" by Deborah Schecter, and many many more!</p>	PK/K, 1st/2nd	375

Danciger	Wendy	danciger700@gmail.com	Trinity Garden	<p>A school garden is an innovative teaching tool and strategy that incorporates hands-on activities in a diversity of interdisciplinary, standards-based lessons. Growing a garden engages students by providing a dynamic environment in which to observe, discover, experiment, nurture, and learn. It is a living laboratory where lessons are drawn from real-life experiences rather than textbook examples, allowing students to become active participants in the learning process. Through the garden, students gain an understanding of ecosystems, an appreciation for food origins and nutrition, and knowledge of plant and animal life cycles. At the same time, they learn practical horticulture skills that last a lifetime.</p> <p>A school garden addresses multiple learning styles and:</p> <ul style="list-style-type: none"> • Provides opportunities for interdisciplinary lessons <ul style="list-style-type: none"> • Improves environmental attitudes • Promotes good nutrition and exercise • Teaches patience and responsibility <ul style="list-style-type: none"> • Instills a positive work ethic • Increases students' self-esteem • Builds classroom relationships, improves teamwork, and strengthens school spirit <ul style="list-style-type: none"> • Beautifies the environment <p>Students will learn about many different types of gardens. The type of garden we will plant will be determined by the students, the season, Oakwood's approval, and access to materials. Some types of gardens are: vegetable/fruit garden, butterfly garden, herb garden, rain garden, flower garden, colonial garden, etc.</p> <p>Materials needed for class are: gardening gloves, small hand shovel, clothes that can get dirty, closed toe shoes, bug spray, sunscreen, 1.5" - 2" three ring binder, pack of dividers with pockets, pens/pencils, crayons, glue sticks, tape, notebook paper, 12" ruler.</p> <p>For 3rd grade and above, they will also need a small tape measure, protractor, and grid paper.</p> <p>Curriculum resources that will be used are: The National Gardening Association https://garden.org Florida Department of Agriculture https://www.freshfromflorida.com/Education/For-Parents-and-Students/School-Gardens https://kidsgardening.org www.crosswalk.com www.csgn.org www.nea.org, http://www.greeneducationfoundation.org/greenthumbchallengesub.html https://www.lifelab.org/for-educators/schoolgardens/</p>	PK-2nd, 3rd-6th	475

Reinhart	April	madamereinhart@gmail.com	Cake Decorating 5th/6th	<p>Is your student interested in learning how to make decorated cakes for family and friends? People are willing to pay quite a bit for personalized cakes and cupcakes and most themed cakes can be made using just a few basic skills and techniques! I have been decorating cakes for 10 years now and thoroughly enjoy the process. I'd love to share my tips and tricks with your student. If you'd like to see my work please feel free to check out "April's Cakes and Pastries" on Facebook. In my class we will be learning the basic fundamentals of cake decorating and practicing techniques using buttercream, fondant and gumpaste. Students will build skills they can use for all types of decorating projects - from cupcakes to cakes for any occasion. The last few weeks of class the students will be decorating dummy cakes of their own design using all the skills they learned.</p> <p>Prerequisite: None</p> <p>Course Topics: Setting Yourself Up For Decorating Success Shaping, Crumb Coating and Icing Stacking a cake Buttercream - coloring, ombre effects, rosettes, etc) Buttercream - Piping and Borders (using different tips) Buttercream Flowers Fondant (coloring – solid color, marbling, tie dye and care) Fondant (rolling it out and covering a cake) Fondant (molds, textured rolling pins, embossing mats & cutters) Simple fondant flowers (rolled roses) and bows Edible Images (edible printer, different papers, applying to fondant) Gumpaste flowers and leaves (moulds, cutters, petal dust)</p> <p>The price of the class includes all supplies along with a "Basic Decorator's Kit" which each student will need to bring to class with them each week. At the end of the course these kits will be for the students to keep. The kit includes: a revolving cake stand, bench scraper, piping tips with bags, a flower nail, fondant rolling pin, offset spatula, cake comb, fondant cutter/embosser and a fondant smoother.</p> <p>Student grades will be assigned based on class attendance and participation along with a final individual cake decorating project of each student's own design. Note, class participation will include student set up and clean up of his/her decorating station.</p> <p>Required: an apron</p> <p>Suggested Additional Materials: basic school folder for class hand outs</p>	5th/6th	475

Reinhart	April	madamereinhart@gmail.com	Cake Decorating 7th - High School	<p>Is your student interested in learning how to make decorated cakes for family and friends? People are willing to pay quite a bit for personalized cakes and cupcakes and most themed cakes can be made using just a few basic skills and techniques! I have been decorating cakes for 10 years now and thoroughly enjoy the process. I'd love to share my tips and tricks with your student. If you'd like to see my work please feel free to check out "April's Cakes and Pastries" on Facebook. In my class we will be learning the basic fundamentals of cake decorating and practicing techniques using buttercream, fondant and gumpaste. We will also work with edible images, air brushing, learn how to mold figures from gumpaste and practice the newest trends in cake decorating including "naked cakes" and "drip cakes". Students will build skills they can use for all types of decorating projects - from cupcakes to cakes for any occasion. The last few weeks of class the students will be decorating dummy cakes of their own design using all the skills they learned.</p> <p>Prerequisite: None</p> <p>Course Topics: Setting Yourself Up For Decorating Success Shaping, Crumb Coating and Icing Stacking a cake Buttercream - coloring, ombre effects, rosettes, etc) Buttercream - Piping and Borders (using different tips) Buttercream Flowers Fondant (coloring – solid color, marbling, tie dye and care) Fondant (rolling it out and covering a cake) Fondant (molds, textured rolling pins, embossing mats & cutters) Simple fondant flowers (rolled roses) and bows Edible Images (edible printer, different papers, applying to fondant) Gumpaste flowers and leaves (moulds, cutters, petal dust) Air Brushing Modeling Figures New and trending cake techniques</p> <p>The price of the class includes all supplies along with a "Basic Decorator's Kit" (instructor will hand out during the first class) which each student will need to bring to class with them each week. At the end of the course these kits will be for the students to keep. The kit includes: a revolving cake stand, bench scraper, piping tips with bags, a flower nail, fondant rolling pin, offset spatula, cake comb, fondant cutter/embosser and a fondant smoother.</p> <p>Student grades will be assigned based on class attendance and participation along with a final individual cake decorating project of each student's own design. Sandefur	Kelli	kellisandefurteach@gmail.com	Economics with BizTown	Today's Students Are Tomorrow's Business Leaders! This class will lead students through the study of business principles, career exploration, banking procedures, business decisions and economic terms. Students will be introduced to the exciting and challenging free enterprise system; they will learn to maintain a bank account; they will learn the importance of ethical business practices; they will understand individual and team goals and practice making sound business decisions. Throughout the program, students also begin to recognize that career and job choices are related to personal interest, skills, knowledge and education. Class fee includes all necessary curriculum and JA BizTown participation expenses.		375
Sandefur	Kelli	kellisandefurteach@gmail.com	Junk Box Wars	"To invent, you need a good imagination and a pile of junk." - Thomas Edison : The Junk Box Wars projects are modeled after the Junkyard Wars TV show that aired on the Learning Channel network; think STEM. Students are given challenges and compete either as individuals or in small groups. They do not know the challenge until they show up for class. This ensures they are using THEIR creative energy, not that from searching Google! Outside of the 'task at hand', students learn to work with different personalities; an important life lesson! Teamwork Works... but only if ALL team members work together! Students who participated in this class during the 2018/2019 school year will continue to find this class exciting; new/different challenges will be presented during the 2019/2020 class! No homework. Class fee includes all necessary supplies to accomplish each challenge.		375
Sandefur	Kelli	kellisandefurteach@gmail.com	Improv - Middle School	Improv is everywhere! Every conversation in life is an act of improvisation; no one gives us a script for the day when we wake up. Improv is NOT about being a natural, funny performer. It's about bringing out the best in you! This Improv class will help students pay attention and will teach them to react and respond to unexpected situations. Improv will also allow students to feel calm in stressful situations; they will feel better equipped to think on their feet, so to speak! Improv skills are learned by playing games, so students are 'at ease' and don't feel they are being 'put on the spot.' No curriculum or supplies needed. Just actively participating students!	5/6, 7/8	350

Sandefur	Kelli	kellisandefurteach@gmail.com	Travel the WORLD	<p>Sometimes the best way to learn World Geography is to plan to Travel the World! Traveling opens your mind and helps you become more knowledgeable about life, people, and the world around you! This class will allow students to plan trips to different continents, countries and cities and by doing so, learning about them. Travel plans and information will be shared with the class, so we can all enjoy this imaginary travel and learn about the world together. Trip planning lessons will include finding the best mode of transportation and booking airline tickets/train tickets/rental cars; efficient and effective packing; being accountable for your possessions; researching and booking accommodations at our destination; booking excursions/tours at our destination; keeping within a travel budget; understanding local customs and etiquette; learning about local cuisine; adapting to local timezones; understanding languages and currencies.</p> <p>Students will need access to a computer and preferably be permitted to bring it to class on a weekly basis. Homework will vary weekly, averaging to about 1 hour per week.</p>	7th/8th and High School	350

Sandefur	Kelli	kellisandefurteach@gmail.com	REAL Life Skills	<p>There are numerous life lessons not required by the educational system but necessary to become a well-rounded person. This class will provide students with valuable lessons, including but not limited to, personal communication skills; digital etiquette; proper typing skills (not hunt-and-peck); basic cursive writing; the 'art' of failing; time management; basics of cooking; basic household repairs and insurance; basic car repairs and insurance; basic first aid; finding a job; health insurance; self defense; how to register to vote and the importance of voting; how and why to grieve; the power of negotiation; how to ask for help. The list seems basic to some adults but our teens are lacking guidance in these areas. Let's help set them up for success outside of the classroom!</p> <p>This class will have minimal homework but some lessons will require practicing outside of the classroom. Required reading materials TBD, but anticipate the purchase of 1 - 2 books.</p>	7th/8th and High School	375
Sandefur	Kelli	kellisandefurteach@gmail.com	Student Leadership/Journalism	<p>This class is similar to our previously titled 'Student Leadership/Student Government' classes. The purpose of this class is to give students an opportunity to develop leadership by organizing and carrying out school activities and service projects. In addition to planning events that contribute to school spirit and community welfare, this student group is the voice of the student body. They help share student ideas, interests and concerns with the school wide community. They write, edit and circulate the Trinity Times school newspaper and organize and create the school yearbook.</p> <p>Any student that is interested in leadership, organizational behavior, event planning, journalism or becoming more involved in the school are welcome to become involved. Minimal monthly homework(writing for school newspaper); no grades.</p>	High School	350
Sandefur	Kelli	kellisandefurteach@gmail.com	Who Was; What Was; Where is?	<p>This class will allow students to learn about important people, events and landmarks through the book series 'Who Was'; 'What Was'; 'Where Is'. These books are written to provide accurate information in an 'easy to understand' format. Students love reading them! Subjects include famous artists, scientists, presidents, explorers, musicians and athletes, as well as famous events, disasters, places, landmarks, world history and wonders of the world. Students will take the information they learn and share it with their classmates in presentations that will provide confidence in public speaking, as well as creativity in making presentation boards, power-point slide shows, reenactments, games and other unique communication methods.</p> <p>Required reading material will be provided; students will need supplies at home to prepare for presentations. Homework will include reading and preparing for presentations; averaging 1 hour/week.</p>	3rd/4th and 5th/6th	375
Sarabia	Angela	asarabia@live.com	Intro to Law and Mock Trial	<p>The text for the course will be Jury Trials in the Classroom by Betty See. Attorney and former prosecutor Angela Sarabia will lead students through an introduction to and an exploration of the American legal system. As part of this exploration, students will all play a role in mock trials in order to explore the law through an adversarial process. In so doing, students will become familiar with basic legal terms and processes and sharpen their ability to communicate persuasively and think on their feet. Students will also discover the many ways the current legal and political system affects their lives and will affect their future.</p>	7th through high school	415

Scull	Doug	dougscullhope@hotmail.com	Science Alive	<p>This year we will explore the Life Sciences, Physical Sciences, and Inventions. Simple machines, static and current electricity, magnetism, insects and other invertebrates, human vision and inventions are a sampling of the topics that will be introduced by "visits" of famous scientists and inventors: Archemedis, Ben Franklin, Louis Braille, and Galileo</p> <p>I also bring animals to most classes- pythons, alligators, tarantulas and many more!</p>	PreK/K-2nd gd 3rd-4th gd 5th-6th gd	460
Sotolongo	Tito	pastortito@tddtampa.org	Bible Class	<p>In my Bible class we will utilize a celebrated and effective Biblical curriculum called THE GOSPEL PROJECT. The Gospel Project take kids on a Christ-centered, chronological journey through Scripture. Kids will discover how the gospel unfolds from Genesis through Revelation. When kids truly experience the gospel, their hearts are transformed. It is the gospel, not good behavior, that changes everything. In this semester course we will cover the story of Jesus and his teachings and miracles that are found in the four gospels.</p> <p>Parents will have to purchase the following supplies:</p> <p>Workbook for 3rd-4th https://www.lifeway.com/en/product/the-gospel-project-for-kids-younger-kids-activity-pages-volume-7-the-rescue-begins-P005791259</p> <p>Workbook for 5th-6th https://www.lifeway.com/en/product/the-gospel-project-for-kids-older-kids-activity-pages-volume-7-the-rescue-begins-P005791260</p> <p>Review/Flash Cards for all grades: https://www.lifeway.com/en/product/the-gospel-project-for-kids-big-picture-cards-for-families-kids-volume-7-the-rescue-begins-P005790009</p>	3rd - 6th grade	415

Sotolongo	Tito	pastortito@tddtampa.org	Spanish 1	<p>Spanish 1 will provide the student with a general introduction to the Spanish language: sound system, pronunciation, functional vocabulary related to everyday life, cultural information and basic grammatical structures. In this year, students will acquire four key skills: listening, speaking, reading and limited writing. By the end of the year, the goal is for each student to gain the ability to begin to carry a basic conversation with others in Spanish. The other objective is to create a solid foundation for further study of the Spanish language.</p> <p>Students must provide a 3 ring binder, with dividers, paper, and pencils.</p> <p>Welcome to Marine Biology with Mrs. Wilson. This year, we will be using Apologia's Exploring Creation with Marine Biology (2nd Edition). The class will feature:</p> <ul style="list-style-type: none"> *Lecture (1/2 of a lesson per week, on average) *Labs/Activities (usually every other week) *Exams (every other week) <p>*Syllabus and a homework link will be provided at the Open House and on the first day of class.</p> <p>*Online grading, tests, and homework will be provided through Schoology.com</p> <p>REQUIRED CURRICULUM: https://www.apologia.com/marine-biology/523-marine-biology-2nd-edition-advantage-set.html This set contains the Book, the Student Notebook, and the Test Booklet.</p> <p>SUPPLIES: All labs/experiments, dissections, and hands-on activities are included in the course fee. You will not need to pay for any of those separately.</p> <p>HOMEWORK: Homework varies in time and difficulty throughout the school year. (2 hours per week, on average)</p> <p>Description from Apologia.com: "Our award-winning marine biology curriculum is now more colorful and exciting than ever! The updated second edition takes your student under the sea to explore the many wonders of marine wildlife and habitats. Topics covered in this edition include everything from microscopic organisms that make life in the ocean possible to macroscopic marine creatures such as clams, starfish, and sharks. Students will discover how these creatures and their physical surroundings form marine ecosystems such as intertidal zones, estuaries, coral reefs, continental shelf communities, epipelagic communities, and deep-ocean communities."</p>	7th/8th - High School	475

Wilson	Michele	HATutoring@icloud.com	Swimming Creatures (5th-6th)	<p>Welcome to Swimming Creatures with Mrs. Wilson! This year, we will be using Apologia's Exploring Creation with Zoology 2: Swimming Creatures of the Fifth Day. We will meet together each week to cover, on average, half of a lesson per week. We will almost always have a hands-on activity or experiment to reinforce the lesson.</p> <p style="text-align: center;">REQUIRED CURRICULUM:</p> <p>For 5th/6th Grades, the book and notebooking journal are REQUIRED for in-class and at-home use and homework. You can purchase the set at https://www.apologia.com/k-6th-grade/607-apologia-advantage-set-zoology-2-with-regular-notebooking-journal.html</p> <p style="text-align: center;">SUPPLY FEE:</p> <p>There is a \$25.00 Supply Fee for the year. This will cover all experiments and hands-on activities. THIS IS INCLUDED IN THE COST OF THE COURSE. YOU WILL NOT NEED TO PAY IT SEPARATELY.</p> <p style="text-align: center;">HOMEWORK:</p> <p>All homework is optional and should take no longer than an hour per week, at the most. Homework will be posted on Schoology.com. The Schoology link to the class will be provided at the Open House and on the first day of class.</p> <p>Description from Apologia.com: "From the rivers and streams to the mighty ocean, God filled the Earth's waters with animals great and small. Upon His word, enormous whales sprung into being. At His command, billions of plankton leapt to life. On that day, millions of creatures like the strapping sea turtles, the skulking sharks, the delightful dolphins, and the soaring squid gladly joined their fellow sea animals. Strong swimming bass traveled the rivers past the creeping crayfish and the sluggardly snails. How joyously crammed with excitement was the fifth day of Earth's existence!</p> <p>Apologia's second zoology book will take you and your family on an exploration into the wonders of the swimming creatures made on the fifth day of creation. You'll begin with a big splash from the whales and dolphins, then spy on seals and meet manatees before swimming with the sea turtles, snakes, and salamanders. You'll even peek in on the primeval plesiosaurus and its pals.</p> <p>Following your frolic with fish and sharks, you'll uncover the world of crabby crustaceans, sea snails, clams, and their soft bodied friends like the octopus, squid, and nautilus. You'll consort with corals, find flowers that devour plankton, see stars and feathers that walk, leap and roll, and discover dollars that disappear in the sand and sponges that clean more than you might think.</p> <p>From the microscopic to massive, no stone is left unturned in your student's passage through the waters of the world...As always, each lesson ends with an experiment or project reinforcing the scientific method and the concepts studied. Among other experiments and projects, your student will try on blubber, investigate a shark's ability to sense electrical currents, explore how whales can hear sounds that come from far away, and learn through experimentation which creatures make the best fossils. No matter how near or far you live from the ocean, you and your students will wonder at God's designs in the amazing aquatic animals He formed on the fifth day.</p> <p>Apologia's second zoology book will take you and your family on a delightful exploration into the wonders of the swimming creatures."</p>	5th/6th	425

You'll even peek in on the primeval plesiosaurus and its pals.</p> <p>Following your frolic with fish and sharks, you'll uncover the world of crabby crustaceans, sea snails, clams, and their soft bodied friends like the octopus, squid, and nautilus. You'll consort with corals, find flowers that devour plankton, see stars and feathers that walk, leap and roll, and discover dollars that disappear in the sand and sponges that clean more than you might think.</p> <p>From the microscopic to massive, no stone is left unturned in your student's passage through the waters of the world...As always, each lesson ends with an experiment or project reinforcing the scientific method and the concepts studied. Among other experiments and projects, your student will try on blubber, investigate a shark's ability to sense electrical currents, explore how whales can hear sounds that come from far away, and learn through experimentation which creatures make the best fossils. No matter how near or far you live from the ocean, you and your students will wonder at God's designs in the amazing aquatic animals He formed on the fifth day.</p> <p>Apologia's second zoology book will take you and your family on a delightful exploration into the wonders of the swimming creatures."</p>	PK/K, 1st/2nd	425

Wilson	Michele	HATutoring@icloud.com	Swimming Creatures (3rd-4th)	<p>Welcome to Swimming Creatures with Mrs. Wilson! This year, we will be using Apologia's Exploring Creation with Zoology 2: Swimming Creatures of the Fifth Day. We will meet together each week to cover, on average, half of a lesson per week. We will almost always have a hands-on activity or experiment to reinforce the lesson.</p> <p style="text-align: center;">REQUIRED CURRICULUM:</p> <p>For 3rd-4th Grades, the book and notebooking journal are REQUIRED for in-class and at-home use and homework. You can purchase the set at https://www.apologia.com/k-6th-grade/607-apologia-advantage-set-zoology-2-with-regular-notebooking-journal.html</p> <p style="text-align: center;">SUPPLY FEE:</p> <p>There is a \$25.00 Supply Fee for the year. This will cover all experiments and hands-on activities. THIS IS INCLUDED IN THE COST OF THE COURSE. YOU WILL NOT NEED TO PAY IT SEPARATELY.</p> <p style="text-align: center;">HOMEWORK:</p> <p>All homework is optional and should take no longer than an hour per week, at the most. Homework will be posted on Schoology.com. The Schoology link to the class will be provided at the Open House and on the first day of class.</p> <p>Description from Apologia.com: "From the rivers and streams to the mighty ocean, God filled the Earth's waters with animals great and small. Upon His word, enormous whales sprung into being. At His command, billions of plankton leapt to life. On that day, millions of creatures like the strapping sea turtles, the skulking sharks, the delightful dolphins, and the soaring squid gladly joined their fellow sea animals. Strong swimming bass traveled the rivers past the creeping crayfish and the sluggardly snails. How joyously crammed with excitement was the fifth day of Earth's existence!</p> <p>Apologia's second zoology book will take you and your family on an exploration into the wonders of the swimming creatures made on the fifth day of creation. You'll begin with a big splash from the whales and dolphins, then spy on seals and meet manatees before swimming with the sea turtles, snakes, and salamanders. You'll even peek in on the primeval plesiosaurus and its pals.</p> <p>Following your frolic with fish and sharks, you'll uncover the world of crabby crustaceans, sea snails, clams, and their soft bodied friends like the octopus, squid, and nautilus.
