

VOXX

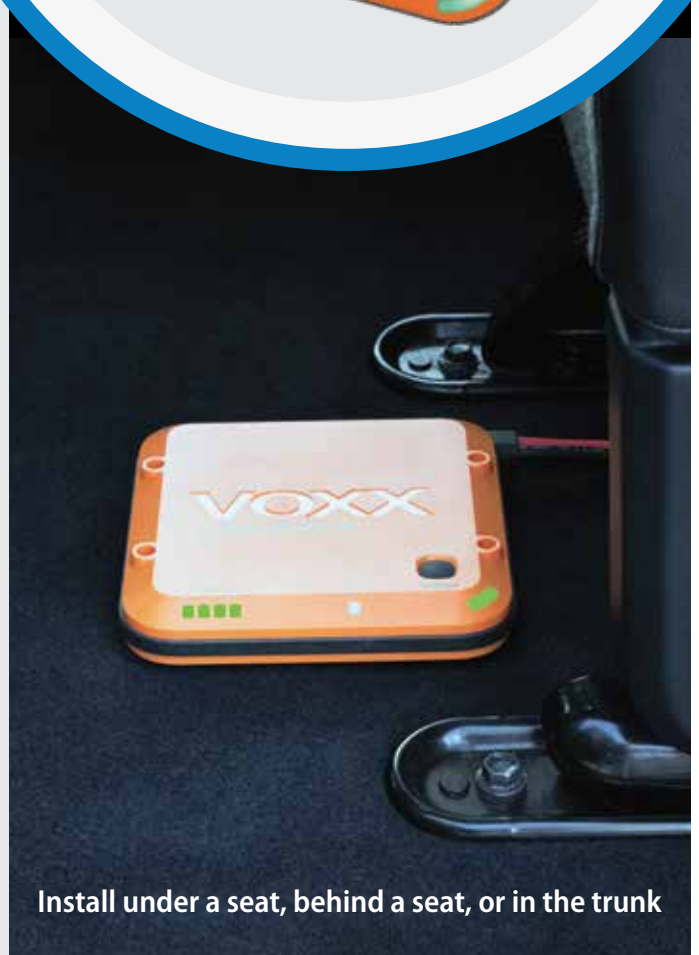

POWER SYSTEMS™

POWV3.5

The power you need,
when you need it most.

- Provides an emergency jump-start when your vehicle's battery is dead
- No need to rely on expensive Roadside Assistance, jumper cables, or portable jump packs
- Installed battery-backup system for piece of mind, every time
- Comfort & Convenience - Start your vehicle from the driver's seat with your Smartphone (iOS and Android)
- Worry-free & hassle-free operation
- Works with all gas and light diesel vehicles
- Great for teen drivers, elderly parents, emergency response vehicles, commercial fleets, and much more
- Versatile installation allows install under seats or in trunk
- On-Demand power when you need it
- Wires directly to the vehicle battery so you never need to go outside in the cold, heat, snow, or rain to hook up jumper cables
- Self-monitoring to prevent overcharging
- Easily controlled through Android and iOS Apps

Install under a seat, behind a seat, or in the trunk
