

RIDES THROUGH THE CITIES OF VITÓRIA AND VILA VELHA

Vitória/Vila Velha City Tour

The tour through two of the main cities in Espírito Santo reveals many surprises for the eyes and for the taste. Vitória and Vila Velha tell the history of the colonisation of Espírito Santo, as we pass by the main tourist attractions. It's easy to fall in love with the region. There are three stops. At the first one, the Convento da Pena (*Penha's Convent*) will enchant you with the view of the sea and of the two cities. From the top of a cliff, the impressive centenary construction holds legends and witnesses the local history. At the second stop, you'll be invited to surrender to the delights of the Garoto Chocolate Factory's bonbons. At the third stop, we will have the opportunity to photograph the most important sights of the city (the 3rd Bridge with the Convento da Penha). This stop happens while visiting Ilha do Boi.

The ride also includes a panoramic tour through the main beaches of Vitória (Praia de Camburi, Praia do Canto, Curva da Jurema) and Vila Velha (Praia da Costa e Praia da Sereia). In addition to these beaches, the panoramic tour follows through downtown Vitória, beholding the wealth of history that our capital has, given that it is the third oldest capital in Brazil.

Duration: approximately 5 hours.

Suitable for the general public.

Tips: bring sunscreen, a cap/hat and a camera.

Clothing: light clothes, but swimsuit is not recommended due to the visits to historic/religious monuments.
