

Story Maps with ArcGIS for Law Enforcement

Presented by:

Bernard Szukalski, ESRI Chief Technology Evangelist

Date: Tuesday, April 17, 2018

Location: ESRI Campus

380 New York Street, Redlands, CA 92373

Parking: near bldg Q (auditorium) /areas in yellow on attached map

Agenda

Check – in will begin at 0830 (auditorium lobby)

Training: 0900 – 1200 hours

*****there will be no IECIAA general business meeting*****

In this hands-on intensive workshop, you will get a comprehensive introduction to Esri's Story Maps. Story Maps let you combine authoritative maps with narrative text, images and multimedia content. They make it easy to harness the power of maps and geography to tell your story for your law enforcement organization. You will learn how to configure a Story Map to use for communicating information about major investigations, sharing information with the public and for internal briefings. Discover how ArcGIS Online and Story Maps can help law enforcement organizations communicate, visualize and display spatial data in one easy-to-use, sharable, application.

Goals

- Learn the newest tips and tricks in ArcGIS for Story Maps
- Understand when to use which Story Map application template and how they can improve your work and communication
- Take your data, analysis, maps, and apps and embed them in the Story Map template – it's a one-stop-shop for your most important information
- Improve collaboration within your organization to discover, make, use, and share maps and information

****40 laptops will be provided by Esri/students are also welcome to bring their own****
