

Solutions for Public Health

Visual HealthNet Financials for Public Health

Mitchell & McCormick delivers unique and creative approaches to your accounting and finance problems that result in more efficient business practices.

VISUAL HEALTHNET FINANCIALS BRING YOU ULTIMATE FLEXIBILITY IN OPERATIONAL MANAGEMENT AND LOCAL, STATE, AND FEDERAL COMPLIANCE REPORTING.

Visual HealthNet Financials is a complete accounting system for Public Health. Visual HealthNet Financials is 100% graphical, using a high-performance, highly fault-tolerant relational database manager.

Visual HealthNet Financials provide agencies the ability to process, transfer, and retrieve data rapidly. Even in a large environment, Visual HealthNet responds rapidly.

As important as speed is, accountability is far more important. Visual HealthNet Financials allows agency personnel to run a variety of reports, from payroll to inventory. All data can be kept on-line indefinitely.

Visual HealthNet Financials' integrated modules eliminate the need for duplicate data entry. Data can be easily transferred to other software packages, such as Microsoft Excel and to federal and state reporting systems. Visual HealthNet Financials provides flexibility in reporting and transferring data, reduces work and supports electronic payment and reconciliation systems and electronic reporting of financial results to grantor agencies.

Visual HealthNet Financials includes modules for :

- ◆ Payroll
- ◆ Leave
- ◆ Personnel
- ◆ General Ledger
- ◆ Accounts Payables
- ◆ Financial Reporting
- ◆ Asset Management
- ◆ Purchasing
- ◆ Cash Management
