

**Cancellation policy:** For cancellations made prior to the placement of the nursery order for rootstocks by the Conservation District, a date yet to be determined, a full refund will be given. For cancellations afterwards, \$10.00 of your registration fee will be refunded with the remaining \$15 retained by the District to cover their non-refundable cost of rootstocks, shipping, and incidentals. You may transfer your fully-paid registration to another, but must notify the Conservation District of your intent and their name, email address, and phone number. If someone's name does not appear on our final registration list, they will be not allowed to participate in the workshop nor make a claim for a refund.

**Safety statement:** There is an inherent hazard to grafting and budding. A slip of a knife or a branch poke to the eye could cause serious and permanent injury. Safety will be discussed, precautions will be taken, and every effort will be made to ensure the safety of all participants. However, your signing this Safety Statement is your acknowledgement that you are aware of the hazards of participation and accept the risk. Further, by signing below, you personally assume all responsibility for harm caused to yourself and you to others and hold-harmless the sponsors and instructor(s) from any and all such claims.
