

CHAPTER 91
WATER METERS

91.01 Purpose	91.06 Meter Costs
91.02 Water Use Metered	91.07 Meter Repairs
91.03 Fire Sprinkler Systems; Exception	91.08 Right of Entry
91.04 Location of Meters	91.09 Meter Testing
91.05 Meter Setting	

91.01 PURPOSE. The purpose of this chapter is to encourage the conservation of water and facilitate the equitable distribution of charges for water service among customers.

91.02 WATER USE METERED. All water furnished customers shall be measured through meters furnished by the City and installed by the City.

91.03 FIRE SPRINKLER SYSTEMS – EXCEPTION. Fire sprinkler systems may be connected to water mains by direct connection without meters under the direct supervision of the Superintendent. No open connection can be incorporated in the system, and there shall be no valves except a main control valve at the entrance to the building which must be sealed open.

91.04 LOCATION OF METERS. All meters shall be so located that they are easily accessible to meter readers and repairmen and protected from freezing. All meters shall have a remote reader installed on the outside of the building at a point clearly visible to meter readers.

91.05 METER SETTING. The property owner shall provide all necessary piping and fittings for proper setting of the meter including a valve on the discharge side of the meter. Meter pits may be used only upon approval of the Superintendent and shall be of a design and construction approved by the Superintendent.

91.06 METER COSTS. The full cost of any meter larger than that required for a ¾" service shall be paid to the City by the property owner or customer prior to the installation of any such meter by the City, or, at the sole option of the City, the property owner or customer may be required to purchase and install such meter in accordance with requirements established by the City.

91.07 METER REPAIRS. Whenever a water meter owned by the City is found to be out of order the Superintendent shall have it repaired. If it is found that damage to the meter has occurred due to the carelessness or negligence of the customer or property owner, or the meter is not owned by the City, then the property owner shall be liable for the cost of repairs.

91.08 RIGHT OF ENTRY. The Superintendent shall be permitted to enter the premises of any customer at any reasonable time to read, remove, or change a meter.

91.09 METER TESTING. The Superintendent or any designee shall make a test of the accuracy of any water meter at any time when requested in writing. If it is found that such meter overruns to the extent of 5% or more, the cost of the test shall be paid by the City and a refund shall be made to the customer for overcharges collected since the last known date of

accuracy, but not more than 5% of the total water bill and not for a longer period than 3 months. If the meter is found to be accurate or slow or less than 5% fast, the user shall pay a testing charge of \$25.00.
