April Showers bring May Flowers!!!

Now is the time to get everything ready for the planting. We all know that if we don't plant the seeds and water them we can not expect any crops. What kind of seeds are you planting. Just imagine if no one had shared Shaklee with you, how would your life be different today. I can not imagine where I would be today, both physically and financially. I am very thankful to my aunt who brought me into this company.

I am looking for five families that would like to make \$50,000 or more a year part time. If you know someone who, is in management and unhappy with their current situation at work or if you have a friend that is worried about not being able to make their house payment please have them contact me. They will be thankful to you for the gift you have given them. We always start out as a Plan B if someone is working and build until we can go and fire your Boss. People are looking for us and you have a gift to hand them. Make a difference in someone's life today, use your heart not your head. They will be thanking you down the road. Nina

Shaklee products have changed every aspect of my life. As a sufferer of arthritis the OmegaGuard and Vitalizer have increased my quality of life as well as relieved 75% of my symptoms. I would recommend Shaklee products to anyone in any aspect of their life from health, fitness, cleaning, and child Health. ~ Anna G.

Arthritis be gone!

No Longer Suffering from Acid Reflux

I have major GI problems from drinking too much pop as a teen and young adult. I gave up pop to help with GI problems, but I could not enjoy certain foods and had to be careful what I ate. I would eat a whole big bag of chewable Roloids in two weeks. And it still didn't really help. Most nights I would wake up puking and gagging from the acid reflux I was suffering from. I started on the chewable cal mag, and the changes have been astounding. I can eat all the foods that I had to stay away from, and I no longer get up at night suffering from the effects of the acid reflux. Shaklee has truly amazing products that actually work.

What Shaklee has done for Me.

I am 31 years old, I've been married for 12 years and have 3 amazing children. During my third pregnancy, I was diagnosed with hypothyroid. I had to get a blood test every month during my pregnancy and started taking Synthroid. After the baby was born, I suffered from Post Partum Depression. I then added anti-depressants to my Synthroid. I didn't have the lows anymore, but I also didn't have highs. I could not truly enjoy watching my children grow up. And with hypothyroid I could not lose the weight I so desperately wanted to, to be healthy and play with my children. I was unhealthy, unhappy, and wanted more out of my life. I was introduced to Shaklee and started on the 180 turnaround kit in September. I started to feel better within the first two weeks. I stopped taking my anti-depressant medication in November. By December, I had lost 12 pounds and a pant size. And I am still losing inches which is amazing. I had tried so many other ways to lose weight, and nothing helped except for Shaklee 180 turnaround kit. I recently stopped taking my Synthroid because of a reaction I was having to it. And after a week of being off of it, I am truly happy. This is the happiest I have been in 5 years. I don't think I could have done this without

Shaklee. I love my Shaklee products so much that I decided to make it into a business. I plan to help contribute to my family's income and save for a family vacation. Through Shaklee and my own determination, all my dreams will come true.

Amazing Kidney Transplant Story

My name is Steve. I am a 53 year old kidney transplant recipient. In September of 2007 a close friend of mine donated one of her kidneys to me. What an incredible friend and unimaginable gift! Approximately 10 months after the transplant Shaklee came out with a new product. Vivix. Vivix is a liquid supplement with Resveratrol and plant polyphenols. Resveratrol has been proven to repair damaged cells at the DNA level. It works in the mitochondria of each cell. Mitochondria are the energy factories in each cell of our bodies. I began taking Vivix as soon as it was available. New kidney transplant recipients have to have blood tests done on a monthly basis. During one of my first visits with my doctor to review how I was doing. He noted my parathyroid level was high, that it needed to be watched. I asked how to lower that level, and the doctor told me I couldn't lower it. The other concern was my liver enzymes were elevated, probably because of all of the drugs I have to take for the transplant. I have to take immunosuppressants so the body doesn't reject the kidney, steroids for inflammation, and blood pressure medication because some of the drugs raise my blood pressure. All of those medications can stress and overwhelm a liver. I also get tested regularly for my creatinine level. This level is one of the main measures of kidney function. Normal is between 0.8 - 1.1. My kidney is from a woman, so it is smaller than my kidney was. My starting creatinine level was between 1.7-1.8. Since regularly taking Vivix my latest creatinine level has improved to 1.0. COMPLETELY NORMAL function! This is important because the immunosuppressants I take to keep my transplanted kidney around, are unfortunately also nephrotoxic (they are slightly toxic to the

kidney). Since I have been taking the Vivix not only has my kidney remained totally stable, it has, in fact, noticeably IMPROVED in it's function. Since regularly taking Vivix, my parathyroid level has dropped 30 points (you remember, the level that the Dr. said wouldn't go down...), and my liver enzymes have all returned to normal. My energy level has gone up noticeably. But, mostly notably, my transplant nephrologist (kidney specialist) during a scheduled follow up 5 years post-transplant was so impressed with my lab results and health he told me I have the makings of a 30 + YEAR KIDNEY! Do I believe in Shaklee and Vivix? You bet I do! You can say I trust Shaklee products with my life!

Steve Klein

Firmer, Smoother Face

I've been using the Enfuselle products for over 6 months, and wouldn't go without them!! Age spots disappear, face is firmer and smoother! Thank you Pat Born Evans for introducing these amazing products to me!

No Surgery Needed!

My husband has always been the active type. He loved fishing and golfing. He is ex military and had enjoyed jumping out of airplanes. Throughout his lifetime he has always held strenuous job and so with all these activities combined with stress, poor eating habits and smoking he woke up one day and was unable to move because of pain in his back. He was offered a less strenuous job of driving an over the road truck and decided it was more stable and less stressful however the doctor visits and pain medications began and he gave up golf and fishing. It was during this period that I had discovered Shaklee but I knew better than to force it onto him and so I used the products and he saw the difference in my health. On 7/7/07 he decided to quit smoking and began to pursue a healthier lifestyle but got blindsided by a tick and ended up with rocky mountain spotted fever. This was a year of hospitals and surgeries and so much time off work and a tremendous weight gain. I do not think that he had

even realized how much all this had affected his health but he was getting depressed and very frustrated and then the doctors started talking neck and

back surgery!! NOW fast forward and I have a husband who has totally changed his life around. He has got rid of over 65lb by using the Shaklee 180 program. He no longer is on any pain medications and with our amazing Shaklee supplements has been able to get his back and neck strong enough (and no surgery) that he is able to fulfill a goal and is now living his life to the fullest. It is wonderful to see my husband excited about his life as he loves to help and thanks to Shaklee he will continue to be an active, energized, positive role model, once again a man of service to his country. Now some of the other members of the team are asking him how does he stay so healthy and so he is being the ripple effect. There's a winner in all of us!

Mother of 4 .. All Under 4 Years Old!

Stress Relief Complex is always in my stash! I didn't think I needed it. But decided to try it because my back was always tense and I had difficulty falling asleep. The first time I used it, I was running late getting all the kids ready for the day. I had to make school lunches, feed the babies and get everybody loaded into the car and I was STRESSED!. I popped a Stress Relief tablet and .. seriously... within 20 minutes, that tight feeling in my chest just melted away. I still had lots to do, but I didn't feel so overwhelmed by it all... and was able to just focus and get to it. My husband and I both use Stress Relief Complex before flights with the kids (the family is stationed overseas with husband in the military), before big work presentations, for really stressful days, especially in the evenings when I need to calm down so I can fall asleep without my mind racing. We love it!

Little boy's allergies GONE!

When my husband's company offered us a move from California to the Midwest, we thought Spring would be the ideal time to transition our very healthy 3-year old son to the change in weather ... especially since we were familiar with the variable conditions of Missouri Winters/Summers! Little did we know that our son would be allergic to the molds, etc. of our new location. After many trips to the pediatrician, allergy testing, medication, and ultimately allergy injections, we were sickened by the

thought of what our move had done to our little boy! Enter Shaklee!!! Not only did we survive that first year thanks to Shaklee supplements, we thrived--- big time!! Even though we were on, what we thought were, very effective supplements while living in California, nothing compared to the results our entire family experienced with Shaklee! After one month of Alfalfa Tabs, Liqui-lea (no Ocean Wonders/Incredivitites at that time), Chewable Vita-C, and Instant Pro-

tein Vanilla (now Energizing Soy Protein), we started seeing improvements AND in less than six months, no medication, no allergist visits, and NO MORE SHOTS! YEA SHAKLEE! We had our healthy, robust, thriving little boy back on track to perfect health!

For those interested, we gave him a "Shaklee Sandwich" with each meal (breakfast, lunch, and dinner): 1 Chewable Vita-C between 2 Alfalfa Tabs (yes, he chewed it), plus 1 tsp. Liqui-lea, 1 T Instant Protein in blender with diluted juice. Dairy was a no-no (for a while). Tricia R.

Product Highlight ~ Shaklee Fiber Plan

TESTS PROVE SHAKLEE FIBER PLAN LOWERS TOTAL CHOLESTEROL BY 33 POINTS IN JUST FOUR WEEKS!

Why Take It ~ Every adult should have 20-35 grams of fiber daily! provides bulk for bowels, binds with water in colon to ensure soft stools, absorbs and removes toxins, fats and wastes from body, helps retain normal cholesterol levels, reduces risk of some kinds of cancer, reduces risk of heart disease, helps maintain stable blood sugar levels, promotes regularity, cleans lymph glands, lungs, liver, kidneys, blood, and bowel lining, aids digestion.

What Issues Can It Help With ~ regulates bowels, detoxifies colon, for hemorrhoids, diverticulosis, high cholesterol and triglycerides (absorbs bad cholesterol), stabilizes blood sugar levels, lessens hunger & cravings,

minimizes fat absorption, helps with weight loss, pernicious anemia, senility, enlarged adenoids or tonsils, enlarged thyroid, varicose veins, heart problems, any infections, complexion, headaches, bad breath, bowel odor, poor energy, foggy thinking, and general health!

How Much and How Do I Take It ~ 2 teaspoons = 4 grams soluble fiber from psyllium. Start out slow and build up to 2 teaspoons. Stir powder briskly into small amount of juice or water. Drink immediately. If gas or discomfort occurs, simply decrease amount until symptoms subside and then increase slowly. Any discomfort will subside once the body adjusts to a high fiber diet.

NOTE: always drink plenty of water when consuming any fiber product to avoid constipation.
