1st Place Noor Ahmed
2nd Place Amina Karabek
3rd Place Iffat Ali

10th Grade
1st Place Zaid Khan
2nd Place Ayaan Gul
3rd Place Nabeel Muhammad Sarwar

MCC SUNDAY SCHOOL SPEECH CONTEST RESULTS
2019 -2020

Judges are requested to use the following guidelines when compiling their evaluations:

Opening Statement: Up to a maximum of 15 points could be awarded for this category. This category is for the impression the speaker creates during the initial 15 to 30 seconds. Half of the points (7 ½) are for overall Islamic Appearance, while the other half (7 ½) are for the proper introduction of the topic and appropriate addressing of the audience. For the Islamic Appearance part, the entire 7 ½ points may be awarded for any decent and acceptable appearance, while no points should be awarded for outrageously un-Islamic appearance (this part of the category is meant only for penalizing clearly un-Islamic appearance).

Speech Delivery: Up to a maximum of 30 points could be awarded for this category. All contestants can bring a written copy of their speech onto the stage; however, points should be awarded based on eye contact with audience, 'Speech versus Reading', appropriateness of tone, and voice

modulation/appropriate emphasis of keywords.

Speech Content: Up to a maximum of 40 points could be awarded for this category. This category includes language, appropriateness/relevance of the speech to the topic, age/grade appropriate adequacy of information, proper grouping of information, novelty of ideas, and logical development/progression of the speech. The judges may deduct up to 20 points from this category if material seems extremely advanced for the student.

Closing Statement: Up to a maximum of 15 points could be awarded for this category. This category is for the adequacy and relevance of the conclusions to the topic, as well as for the extent of support of the conclusions by the body of the speech. The points awarded for this category may be reduced by up to 10 points if the speech exceeds the allotted time limit. If the speech exceeds the allotted time limit by 30 seconds, no points should be awarded for this category and the Judges should start disregarding anything spoken beyond this instant. Using a bell, a Timekeeper will let everyone in the room know if and when the above two stages are reached.

Age/grade appropriate leeway should be given to the speakers when using the above guidelines. However, since each speaker would only be competing with other speakers within his/her grade, consistency of standards within each grade is very important.
