

Wyoming Pupil Transportation Association

Presents:

2022 Mechanics' Workshop

June 27th, 28th
Casper, Wyoming

Sharron D. Nichols Auditorium Casper College

WPTA hosting a Bendix Air Brake Class

Bendix has a long and notable history of being the first to introduce landmark air brake system technologies such as air compressors, air dryers, and ABS to the North American commercial vehicle market.

Agenda:

Monday

7:00-8:00	Registration
8:00-12:00	Bendix
12:00-1:00	Lunch
1:00-5:00	Understanding and troubleshooting air brake systems.

Course is designed to- • Help attendees increase their skills and knowledge around how to repair Bendix brake systems • Provide attendees with a strong familiarization of the Bendix Brake Systems • Allow time for attendees to ask questions and obtain real-time answers/advice from an expert

Tuesday

7:00-8:00	Registration
8:00-12:00	Mechanic Round Table
12:00-1:00	Lunch

Mechanic Round Table

- o **Who Should Attend: Wyoming School District** Lead mechanics and professionals who are responsible for repair and maintenance of pupil transportation. Please register at www.wpta.net or questions please call Athena Gerzanic 307-320-5801
