

# BRAZOS MONTESSORI

MARCH

**March** is the third month of the year. It is the second of seven months to have a length of 31 days. In the Northern Hemisphere, the meteorological beginning of spring occurs on the first day of March. The March equinox (the length of day and night is nearly equal in all parts of the world) on the 20th or 21st marks the astronomical beginning of spring in the Northern Hemisphere and the beginning of autumn in the Southern Hemisphere.

**March 2**  
**Texas Independence Day 2019**

**March 17**  
**Saint Patrick's Day 2019**

**FIRST DAY OF SPRING - WEDNESDAY MARCH 20**
