SOME THINGS TO PONDER

By Steve Bakke  June 24, 2019

Let's ponder these facts and observations when evaluating the related issues and making financial and political decisions:

- The “green revolution” requires rare earth minerals in its “green” technologies. Unfortunately, zealous environmentalists have created significant barriers to mining “rare earth” and other minerals in the U.S. The result is that China now controls most of the available world's supply.
- According to the Crime Prevention and Research Center, between 1950 and 2018, almost 98% of all mass public shootings occurred in gun free zones.
- First: “There's no border crisis.....it's a fiction manufactured by Trump”; now: “There's a horrible border crisis.....it's been caused by Trump.”
- Reports indicate that a significant portion of the West Antarctic ice sheet is unstable. Recently, over 90 new active volcanoes were discovered, bringing to almost 150 the known active volcanoes “peppering” that ice sheet. These “under-the-ice” cauldrons, some almost a mile high, contribute considerably to the reported instability.
- A tweet from “W's” Press Secretary, Ari Fleischer's: “Democratic Plan for the Future: Decriminalize illegal border crossings; Provide illegals with drivers' licenses; Provide illegals with free health care; Watch illegal immigration soar; Create path to citizenship; and WIN ELECTIONS. That's what this is all about.”

So many things to consider.
