

The Administrative Data Research Facility (or, data, data, everywhere – we need to stop and think)

Julia Lane

New York University

Key ideas

The screenshot shows a web browser window with the address bar displaying "coleridgeinitiative.org". The page features a dark blue background with a grid of light blue dots. The main heading "COLERIDGE INITIATIVE" is prominently displayed in large, white, sans-serif capital letters. Below the heading, the tagline "Building the capacity needed to accelerate the effective use of new data." is written in a smaller, white, sans-serif font. In the bottom right corner, a quote is presented: "Data, data everywhere, we have to stop and think" followed by "with apologies to the Rime of the Ancient Mariner." in an italicized font. The top navigation bar includes a logo on the left and menu items: "Training", "Computing", "Connecting", "Resources", and "Mailing List". On the right side of the navigation bar, it states "A collaboration presented by" followed by logos for "THE UNIVERSITY OF CHICAGO", "NYU", "Center for Urban Science + Progress", and "UNIVERSITY OF MARYLAND".

COLERIDGE INITIATIVE

Building the capacity needed to accelerate the effective use of new data.

*"Data, data everywhere, we have to stop and think"
with apologies to the Rime of the Ancient Mariner.*

A Locally Based Initiative to Support People and Communities by Transformative Use of Data

JULIA LANE, DAVID C. KENDRICK, DAVID T. ELLWOOD

The data revolution is transforming how executives manage operations and businesses deliver goods and services. Yet when it comes to helping people escape poverty, the revolution has barely begun.

H.R. 1831: Evidence-Based Policymaking Commission Act of 2016

Introduced: **Apr 16, 2015**
114th Congress, 2015–2017

Status: **Enacted — Signed by the President on Mar 30, 2016**
This bill was enacted after being signed by the President on March 30, 2016.

Law: Pub.L. 114-140

Sponsor:  **Paul Ryan**
Representative for Wisconsin's 1st congressional district
Republican

Text:  **Read Text »**
Last Updated: Mar 18, 2016
Length: 5 pages

Overview

Key Performance Indicators

Key Drivers of Transformation

IT Modernization

Data, Accountability and Transparency

People - Workforce for the 21st Century

Cross-Cutting Priority Areas

Improving Customer Experience

Sharing Quality Services

Shifting From Low-Value to High-Value Work

Functional Priority Areas

Category Management

Results-Oriented Accountability for Grants

Getting Payments Right

Federal IT Spending

Leveraging Data as a Strategic Asset

Goal Leaders

Pradeep Belur,
Chief of Staff, Small Business Administration

Karen Dunn Kelley,
Under Secretary of Economic Affairs and Acting Deputy Secretary, Department of Commerce

Jack Wilmer,
Senior Advisor for Cybersecurity and IT Modernization, Office of

Goal Statement

Leverage data as a strategic asset to grow the economy, increase the effectiveness of the Federal Government, facilitate oversight, and promote transparency.

The Challenge

The use of data is transforming society, business, and the economy. Data provided by the Federal Government have a unique place in society and maintaining trust in Federal data is pivotal to a democratic process. The Federal Government needs a robust, integrated approach to using data to deliver on mission, serve customers, and steward resources while respecting privacy and confidentiality.

**“If HP only knew what HP knows,
we would be much more
profitable”**

Our approach

Secure **computing & analytics** platform

SAFE DATA STRATEGY

Safe People
approved, trained researchers

Safe Settings
only access data in a secure environment

Safe Projects
approved projects consistent with agency mission

Safe Outputs
review to limit disclosure before data are released

Result in  **Safe Data**

Analytics **training** programs

UPCOMING TRAINING PROGRAMS

Spring 2018
Kansas City, MO

Application Closed

Summer 2018
Chicago, IL

Apply by May 18, 2018

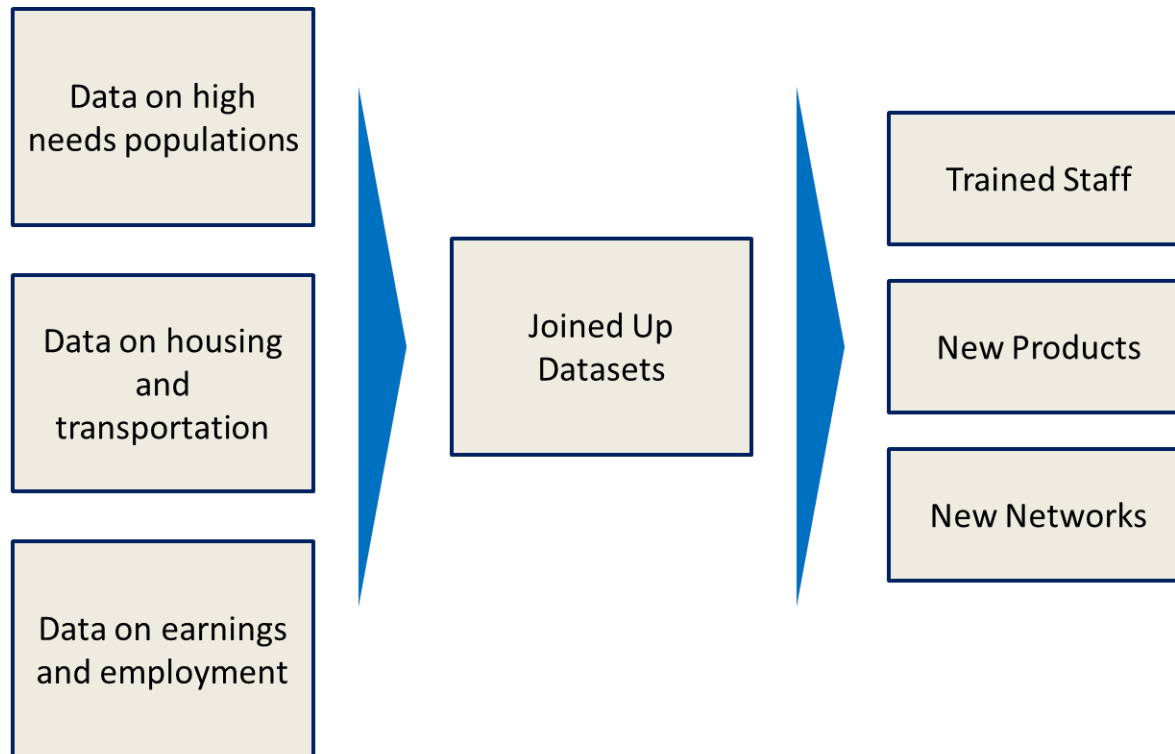

Fall 2018
Washington, D.C.

Apply by August 31, 2018

Winter 2019
New York, NY

Apply by November 30, 2018

Specifics

Networks: >90 govt agencies; >200 participants

Q4 - How has your participation in the program changed your work in the last year?

Are there skills that could be added to the course? If so, which skills?

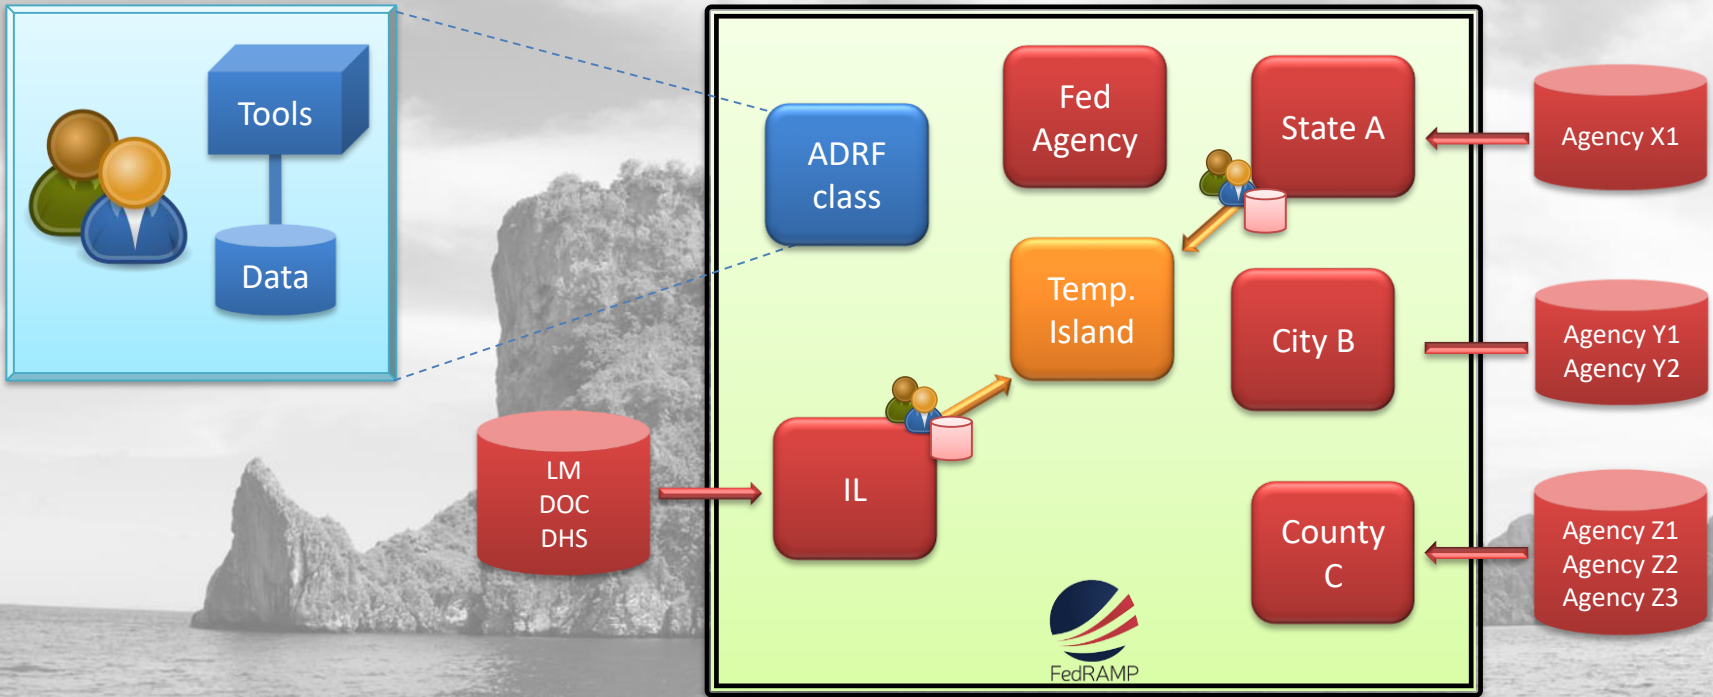

Surprisingly (to me), it was the networking within the class that had the most impact. My organization is currently involved in a project with two other classmates (from two separate organizations), and getting to know them in the class environment was very helpful. We also hired a third classmate into our agency based upon her performance in class; she has had a noticeable impact on our project.

Understanding of techniques and programs that I previously had no visibility on.

It's something that I said before, but hearing the topics in the class taught by experts felt as though a veil was lifted.

I can speak more eloquently about data science, but haven't changed my day to day use of SPSS. I do hope in the next year I'll be able to merge some new data we just collected with other public datasets using the skills learned in this class.

I have been trying to shift my work from simple reporting to more complex analytics to provide better insights, propose solutions, and help improve organizational performance.

ADRf

Products: Corrections and Employment

Table 1 summarizes the median time spent in different states for each cluster.

Table 1. Median Time Spent in Each State by Cluster

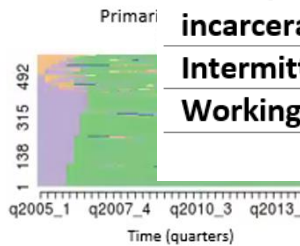

Table 4. Recidivism Rates by Cluster

	At least one incident of recidivism	At least one technical violation	Technical violations as a percent of recidivism
Full cohort	53%	31%	60%
Primarily incarcerated	41%	26%	65%
Intermittent employment	66%	39%	58%
Unemployed after initial incarceration	23%	14%	61%
Intermittent incarceration	99%	66%	67%
Working after incarceration	43%	21%	49%

Figure 2 Cluster Analysis: Five clusters were identified from the trajectories.

Tailored and Customizable Metrics

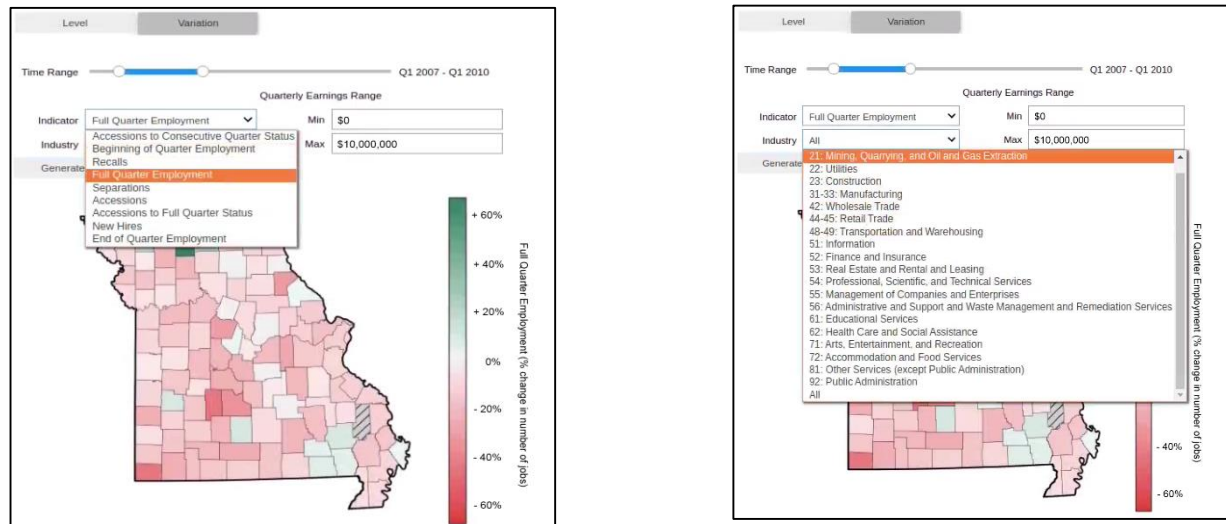

Fig. 2: Dashboard metrics (left) and industry subsets (right)

The dashboard can visualize different metrics (left) – including QWI metrics developed in the context of the Census LEHD program –, subsetting the data by different industries (right).

Comparing Employment Dynamics Across Borders

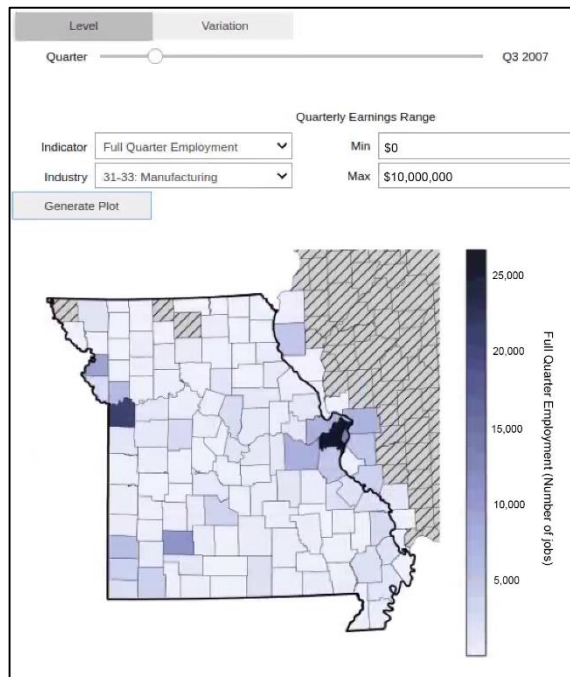

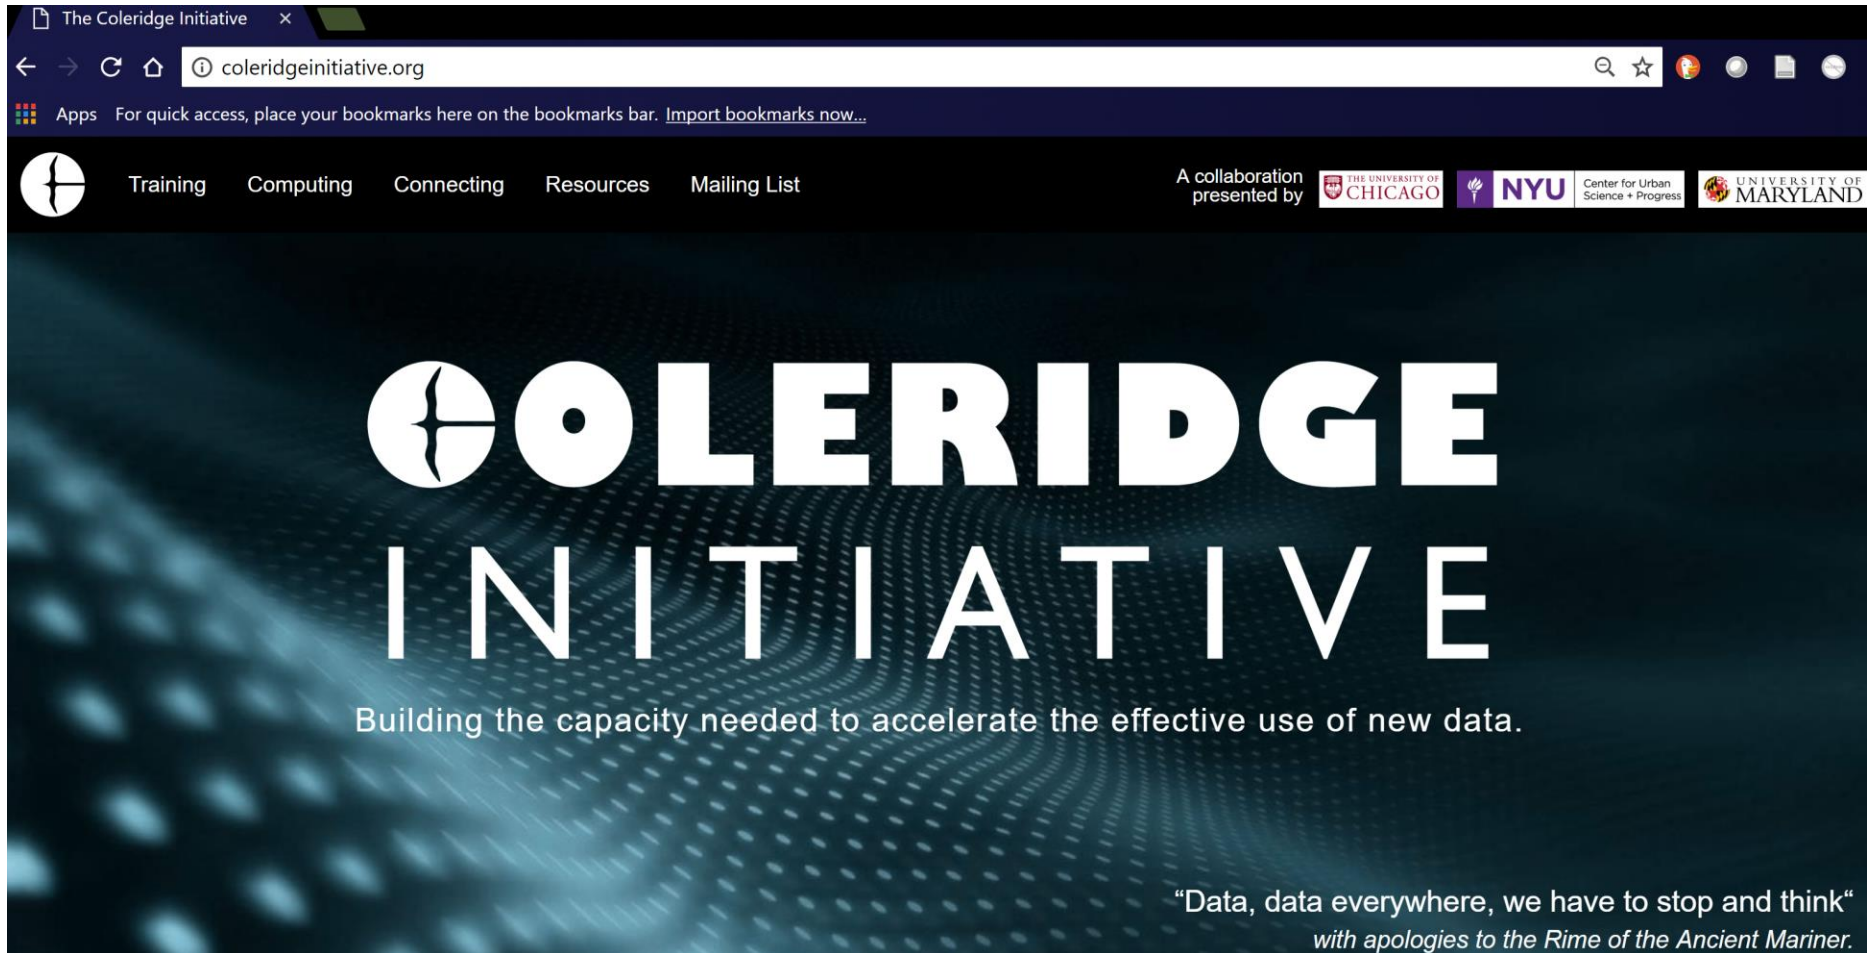

Fig. 3: Comparing total earnings with Illinois border counties

The dashboard can include border counties from the states that provide data to the ADRF.

Key ideas

The screenshot shows a web browser window with the address bar displaying "coleridgeinitiative.org". The page features a dark blue background with a grid of light blue dots. The main heading "COLERIDGE INITIATIVE" is prominently displayed in white, with the "C" containing a stylized logo. Below the heading is the tagline "Building the capacity needed to accelerate the effective use of new data." and a quote: "Data, data everywhere, we have to stop and think" with a reference to the Rime of the Ancient Mariner. The top navigation bar includes links for Training, Computing, Connecting, Resources, and Mailing List, along with logos for partner institutions: The University of Chicago, NYU, Center for Urban Science + Progress, and the University of Maryland.
