

# HYDRATE BRAZILLIANTLY!

## ABOUT PURE BRAZILIAN COCONUT WATER

Purity is a symbol of innocence, and we make sure that Pure Brazilian is a beverage you'll never feel guilty about.

Grown and harvested from our own plantations in Northern Brazil, we hand-select every Anão coconut at their peak of perfection.

Then using a very expensive farm-to-bottle process we protect the freshness and purity of our coconut water until it hits your lips. Our coconut water has no artificial flavors; no artificial preservatives; and no added sugar. And that adds up to ZERO complaints.

Because we love where we come from, for every bottle sold, one square foot of the rainforest is lovingly replenished with our partnership with Conservation International.

**Who knew drinking coconut water could be so good? Oh yea...we did.**
