ProContractor™ by Viewpoint is a complete solution designed to help contractors improve productivity and profitability from end-to-end:

INCREASE VISIBILITY ACROSS YOUR BUSINESS

Reduce risk and track absolutely everything, so you know what worked, what didn't, and why.

IMPROVE ACCURACY OF COST REPORTS AND PROJECTIONS

Quickly compare budgets against pending and posted costs to profitably manage projects.

BREAK DOWN SILOS TO ENHANCE COMMUNICATION

Create interactive workflow, accountability, and processes to improve project quality and timeliness, whether working in the office, on the road, or at a job site.

TIGHTEN CONTROL ON COSTS AND SCHEDULES

Bring in every project on schedule and within budget with real-time cost tracking tools.

MAKE DECISIONS BASED ON TRUE REAL-TIME DATA

Quickly and easily access information for confident decision-making.

Built to be flexible and scalable, ProContractor allows you to go all-in-one at once or build your complete solution one application at a time. That means you can bring the team together and give each person the right-fit software to:

- Bid more jobs in less time, with greater ease and speed

- Manage projects from anywhere, anytime to stay on track and on budget
- Boost accuracy and control of data for confident financial reporting

ProContractor for Easy Takeoff and Estimating

Quickly and precisely quantify, price, and bid projects for the best profit using ProContractor for estimating. Be competitive, save time, and win more work by using the easy-to-use software to produce takeoffs, estimates, and proposals.

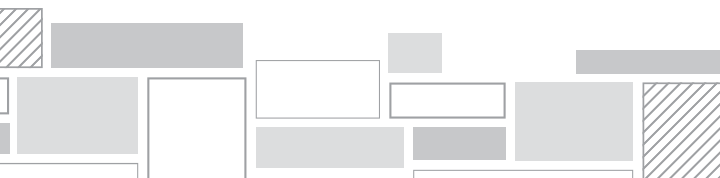

- Bid more work with greater speed, accuracy, and profit margins
- Eliminate cost and hassle of using paper plans
- Easily compare plans to identify changes
- Properly estimate time, labor, and materials to be competitive

Right-fit features are designed for general contractors in residential and commercial construction, for concrete and masonry contractors and other specialty trades, and for earthwork and excavating contractors.

ProContractor for Profitable Project Management

Stay on top of every project, every schedule, and every budget with real-time information at your fingertips wherever you go! Using ProContractor for project management, you save time, minimize risk, control costs, and gain visibility thanks to job cost tracking tools, centralized data, and streamlined workflow.

- Easily create projects, budgets, and schedules

- Have real-time job analysis and committed and projected cost reporting
- Quickly produce alternates, change order requests, and owner change orders
- Manage with insight using Bid-Budget-Actual variance reporting

Plus, you can stop lugging around out-of-date, paper-stuffed job binders, and stay organized with all paperwork attached to a project electronically. Manage projects on-site or on-the-go and be confident everyone is working off the same data, deadlines, documents, and details.

Accurate Accounting and Financial Reporting

Always know true job costs and have rock-solid financial practices and reporting with ProContractor. Designed for the needs of construction accounting, this solution allows you to minimize risk, control cash flow, improve accuracy and security, and build reliable audit trails. The comprehensive accounting solution includes

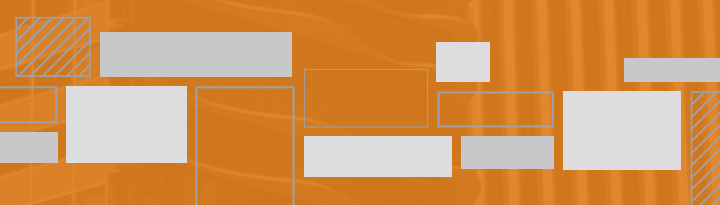

applications for managing financials, employees and payroll, procurement, and inventory, as well as electronic filing and reporting.

- Easily pull valuable reports on critical accurate data
- Speed up approvals with electronic routing and tracking
- Efficiently create, track and manage change orders
- Quickly handle complex construction payroll scenarios
- Manage with comprehensive reporting at your fingertips
- Streamline process with all accounting applications (AP, AR, GL, Payroll, Purchase Orders) in one system

Using ProContractor, you can eliminate inefficiencies, inaccuracies, and other obstacles to reaching your optimal profitability while working with the data integrity you need for peace-of-mind.
