LPC Overview and History

Established in 1994, LPC has gained the trust of the nation's largest law firms to become the market-leading advocacy and clerking service in the UK. Our flexibility means we can work with individual clients, large or small, in the way that suits them best. We guarantee unmatched standards of client care. And with LPC Online, you will find it easy to book in a hearing and leave the rest to us.

LPC Nationwide

Our national approach is founded on strong local capabilities and experience. With our in-depth local knowledge of all county courts in England and Wales and the largest network of advocates and clerks in the country, we can deliver the highest standards of service wherever our clients need them.

As specialists in mortgage possession law, we handle bulk instructions for all the major lenders nationwide.

Because we have advocates in every county court in the country, we can easily manage your last-minute instructions.

LPC Approach

We know our business is your business, which is why we provide a standard of client care we believe is second to none, with a flexibility that allows us to meet your individual needs. Our size means we can easily handle large volumes of work, while our approach means every case receives our full attention. And because of our dedication to professional development, you are guaranteed to receive the best possible representation.

We will meet with you regularly, providing performance-statistics and management reports. We listen to what you want to ensure we are doing all we can for you. Feedback from our existing clients shows we frequently do more.

We offer a fixed fee structure with no hidden charges, travel expenses or other disbursements, and take care of all payments to advocates.

Should you ever feel we have failed to deliver the desired standard of service, you will not be charged.

LPC Online

Our tailor-made IT system means you can book in a hearing and rest assured it will be managed effectively and efficiently at every stage. For the case that demands special attention, simply log on, and LPC Online allows you to track its progress.

Once registered you will log on to your own secure area of our website, which gives full access to our computerised case management system. You can book in hearings, track your documents, update instructions, download case summaries and more.

The company intranet gives our advocates access to all the latest legal news and legal research tools, and an online law library.

Our investment in technology allows us to handle an ever-increasing volume of work, whilst ensuring each individual case receives the maximum care and attention.
