

TEFLON MICA TAPE

Teflon with Mica and resin as binder.

Application:

Used for fire resistance on substrates that are at risk of catching fires.

Sr. No.	Description	Units	Observed Values
1	Thickness	mm	0.27 ±0.02
2	Mica Thickness	mm	0.1 ± 0.02
3	Teflon Thickness	mm	0.17 ± 0.2
4	Continuous bearing temperature range	-	600°C for minimum 2 minutes
5	Maximum bearing temperature range	-	800°C for maximum 1 minutes
6	Dielectric Strength	KV	≥ 2
7	Adhesion Strength	Gm/2.5 cm	800
