Information about meeting from Mike Risk

Mike Risk: People broke into groups due to a large response and looked at hives, frames of bees, searched and marked some queens identified brood, drones honey, pollen, propolis etc. If you had questions about what you were looking at, or looking for, there were experienced beekeepers present trying to provide the opportunity to observe first-hand what is going on in the hive. This was a hands on event as much as possible to help those with questions as well as new beekeepers.

The meeting was adjourned approximately 8:30 PM.
