COLA

1GOD 1FAITH 1Church Universe Custodian Guardians proclaiming the Law-Giver Manifest!

Cola an unhealthy drink a main cause of Diabetes originated in the US. Greedy US Profiteers marketed Cola all over the world spreading unhealthy drinking habits & Diabetes. Cola is a threat to the Health of Humankind. Government & government agencies failed & fail to protect the communities from this threat. These profiteers & government agencies are held accountable.

We pray that the chemist who gave us CC(*Cola Curse*) relives the misery he caused for all time. You are a Cola drinker & got Diabetes, hold the people accountable(*non-violent*) who sold, who manufactured these drinks & Government that allowed is allowing this health threat.

**Stop! Drinking Cola!**

**Help! Others kick the habit.**

**Free Humankind from the Cola Threat!**

US profiteers created a drink for the masses that is addictive creating repeat business. It started with the African Coca leaf extract, Peruvian Cola(*Kola*) extract, sweeteners, caramel color, citrus oils, spices, brominated vegetable oil, other ingredients & carbonated water were added. Combination of above ingredients vary between products.

**Unhealthy Ingredients:** Coca, Kola, sweeteners, herbs & spices, brominated vegetable oil & carbonated water. Combining these makes them a health threat. The food & drink industrie is behaving like the tobacco industry. They pay corrupt, deceitful, lying, calling themselves expert's to produce manipulated scientific evidence. This evidence claims: Unhealthy is healthy & good for You. Ban these expert's from doing scientific research & give evidence. Shun 'MEDIA' that publishes this rubbish!

**Coca** is a plant with a complex array of mineral nutrients, essential oils, & varied compounds. Chewed, coca acts as a stimulant, suppresses fatigue, hunger, pain, thirst & it helps overcome altitude sickness. From the coca leaf cocaine can be extracted. This makes it addictive. Using this compound makes you a 'Junkie'!

**Kola** nut contains 3 stimulants, 1 being caffeine.

**Sweeteners** natural(*fructose*) & unnaturals. Overuse of natural sweeteners is a main cause of diabetes. Artificial sweeteners have numerous side-effects. Making artificial sweeteners an unhealthy choice. All drinks with any added sweeteners are to be avoided. Avoid products that have added sweeteners. Don't become addicted to have everything you eat & drink taste sweet.

**Herbs & Spices:** are used to stimulate, to create cravings, dependency.

>>>

**Brominated vegetable oil:** Consuming regularly this supplement can result in memory-loss, tremors, loss of muscle-coordination, headaches, fatigue,... Avoid food & drinks that contain brominated vegetable oil.

**Carbonated water:** Is water with carbon dioxide gas added. Increased levels of Carbon dioxide in the atmosphere is creating climate change. Ingesting Carbon dioxide is a common form of suicide. Drinking water poisoned with Carbon dioxide is plain dumb & unhealthy. Any sparkling drink is a health risk. A sparkling drink mixed with Alcohol gets you drunk faster. A sparkling drink with sweeteners mixed with Alcohol gives you a painful 'Hangover'. Makes you blubbery, fat, obseive, an unhealthy person.

After having hooked the people on Cola. The greedy profiteers expanded into 'Energy' drinks. To cater for the emerging 'Adrenaline-Junky' craze.

Energy drinks increased caffeine & sodium. Regular consumption of these drinks has led to headaches, insomnia, nausea, nervousness, vomiting, rapid heart rate, heart-palpitations & death. To increase sales they market these drinks with alcoholic.

Cola & Energy drinks stimulate, create cravings, resulting in a high. Followed by a low. Encouraging to have another drink to get another high. The low's are especially dangerous to people with depression who may then harm themselves.

Next the greedy profiteers moved into drinks without caffeine. Lemonade (*chemical concoction containing flavors, colors, acids,...*) because of sweeteners are a cause of Diabetes. Their health-risk is increased by carbonation. They deceitfully added fruit-juice to imply that this makes them more healthy.

A liter of fruit juice has about the same amount of sugar & fructose as a liter of soft drink. Drinking 1 glass every day will increase your weight(*Blubber*).

## **S H U N**

'Cola, Energy drinks, Lemonades! All drinks with any added sweeteners (*artificial &/or natural*)! All cabonated drinks! All mixed Alcoholic drinks!

## **A C C O U N T A B I L I T Y**

Entities & people who create &/or profit from threats against the human body are held accountable. Above unhealthy drinks are threats against the human body. Governments & government agency's/employees who are guilty of above threat, **MS/R7**. Producers, Distributors, Retailers, who are guilty of above threat, **MS/R7**.
