Donation for Teacher "Fund-A-Need"

Fund-A-Need is our new donation program that identifies an opportunity to support a specific need within our school.

What is a Hydro Garden and why is it helpful?

The Generation 4 Flex Farm is the latest and greatest innovation in indoor, vertical farming technology. By carefully controlling everything plants need to thrive, each Flex Farm can grow more than 394 pounds of produce annually. They're portable and only require a standard electrical outlet and less than 10 square feet of space.

We would like to purchase 1 new vertical farming box and in exchange for purchasing one they will upgrade our old system with the Gen 4 and allowing us to double our grow. With 2 systems we can always have fresh greens in rotation.

The cost of the Generation 4 Flex Farm is \$4,695

Help us support the needs of our school by participating in this

Thank You

Thank you to the many 2022 Gala Committee volunteers who spent many hours to make this event possible.

We also thank everyone for their volunteer time, gala donations and monetary support. Each gift, regardless of size, is important to the success of this annual event.

We are blessed to have a supportive St. Mary's Catholic School family and community.

Thank you to all the St. Mary's staff who all have created a special school that we all have come to love and support.
