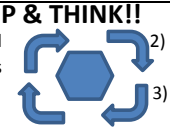
FIELD LEVEL HAZARD ASSESSMENT (FLHA)

STOP & THINK!!

1) LOOK around identify hazards
2) Assess risks
3) Control risks
4) Resume work



Date:	Company:
Project:	Trade:
Specific Task Location:	Job #:
	Am I physically prepared and mentally focused?

Review the following at the work site and ONLY check the items which apply to the task.

Identified "HIGH RISK" tasks require "SITE SPECIFIC" Hazard Assessments c/w step-by-step Procedures

Shutdowns/Permits - signed/posted		**Environmental Hazards**		**Working at Heights Hazards**	
	Notice of Work		Spill potential		Barricades/flagging and signs
	HVAC		Weather conditions		Holes/Dangerous openings
	Fire/Smoke		MSDS reviewed		Protect from falling items
	Sprinkler		Ventilation required		Powered platforms - AWP
	Electrical		Heat stress/cold exposure		Others working above/below
	Water		Other workers in area		Fall arrest
	Confined Space		Inadequate lighting		Ladders
	Hot Work		Housekeeping		Other
	Asbestos		Secure loose materials	**Personal Limitations/Hazards**	
	Other	**Activity Hazards**			Clear instructions provided
Infection Prevention & Control			Sensitive equipment in area		Trained to use tool/perform task
	Dust		Burn/Heat sources		Distractions in work area
	Silica/Concrete		Compressed gasses		Working alone (communication)
	Asbestos		Energized equipment in area		Lift too heavy/awkward positions
	Mould		Welding/grinding		External noise levels
	Fibreglass/Insulation		Electrical cords/tools - condition		Physical limitations
	Drywall		Equipment/tools - inspected		Violence/Harassment Assessment
	Other		Lockout procedure in place	**PPE Requirements**	
Ergonomics Hazards			Airborne particles - chipping		Mandatory: CSA Approved hard hat,
	Working in tight area		Other		Minimum 6" green work boots and
	Part of the body in line-of-fire	**Access/Egress Hazards**			Safety Glasses/full face shield
	Working above your head		Partially obstructed		Dust mask/respirator
	Pinch points identified		Slip/trip potential identified		Hearing protection
	Repetitive motion		Excavations		Other
	Repetitive work in awkward position		Scaffold - inspected and tagged		When **PPE** is used as a **Control** it **Must** be **Specifically** identified
	Other		Other		

Item	Priority	TASKS	HAZARDS	CONTROLS

1. Low Risk **2. Medium Risk** **3. High Risk**

All waste cleaned up and removed (y/n) _____ All tools/equipment removed (y/n) Task area cleaned at shifts end (y/n)_____

All member(s) of crew **MUST** sign card before starting work. **DO NOT** sign until you understand and agree with the FLHA.
