| MAS #67              | 90    | 13.7     | 57          |

## PLOT HIGHLIGHTS

- SY007 strong yield this year, early harvest wheat every year with nice straw yields.
- LSS 01M17 Strong yield and high straw quality, great scab resistance
- MAS #316 packs a big yield punch in good environments with strong head scab tolerance.
- NEW!! LSS 02E18 Earliest variety we sell. Strong test weight. Great variety to get harvest going early
- MAS #67 does not show well in plots due to needing high population. Best scab resistance on the market. Very consistent.
- MBX 969 Plot winner this year, needs to be on good soil to perform.
