## About Karen....

Karen has been closely connected to nature and animals all of her life. Her gentle approach and reverence for all life allows her to connect with your animal companions and understand their thoughts. Share insights with your animals as Karen brings your session to a higher level.

Specializing in behavior resolution, Karen will help you understand your animal companion's perspective. Understanding their point of view often opens the door to changing unwanted behavior.

Drawing upon the wisdom of the animals she communicates with, Guardian Angels and Spirit Guides, Karen helps restore balance and harmony.

## How this works...

Sessions are performed over the phone with a photo or just a description. Using telepathy animals do not need to be present. All sessions are private, confidential and recorded for your convenience.

Sessions are interactive... You get to ask questions and hear

their messages.

**Messages from the Other Side....**

### Animals in the Afterlife...

Death and dying can be a difficult time. Often we are left feeling guilty and deep in despair. Messages from the Other Side can help bring about healing, release guilty feelings and bring a sense of comfort.

Your animal companions anxiously await the opportunity to share their thoughts and feelings with you.
