fdSTONE™ Characteristics

- fdSTONE™ solid surface is made up of an advanced composite of organic materials (aluminum-trihydrate), acrylic and color pigment. Containing methacrylic acid makes fdSTONE™ UV resistant. Constructed as a solid unit with no layers, voids or hollow areas; fdSTONE™ is entirely solid.
- fdSTONE™ is heat resistant but it is recommended to minimize direct heat and not to place hot appliances directly on the surface.

POLICIES - Finish and Characteristics (continued)

- Under normal applications: chemicals, sterilizers, cosmetics, food acids and alcohol would not penetrate into fdSTONE™. Any spills should be cleaned as soon as possible with warm soapy water. - Each top has been REINFORCED in packaging and are packaged individually; a TEAM EFFORT should be used when installing.
- Unless specifically noted each stone and quartz top is pre-cut with an oval sink cut-out of 16½x13½" (this will accommodate an undermount lavatory basin measuring 17x14"). A rectangular sink cut-out of 17 7/8x11" (this will accommodate an undermount lavatory basin measuring 18x12").
- Back splashes are included with Stone and Quartz tops they are NOT available for Ceramic Tops. Back splashes for fdSTONE™ are available and are sold separately.
- Optional Quartz and fdSTONE™ side splashes are available (SOLD SEPARATELY). Not available for Stone or Ceramic Tops.
