

## **Ministry Minute**

### **Tech Team**

We invite **YOU** to join our Worship Team!

Members of the Tech Team are an important part of our worship services. They monitor the sound board and provide visual support through our presentation software during Sunday morning worship services. These systems, designed for churches, are simple to operate.

The sound mix is set. All components of the services are already loaded into the computer.

And... you will receive training and support as you “learn the ropes”.

Do you feel God calling **YOU** to step up and join this ministry?

Contact Mike Millar or Ruth Dulaney  
or call the Church Office at (309) 582-2169.
