Hi Michael,

Here is what we talked about during our committee meeting:

- Let the remaining 3 life ring stations go to those areas that do not have life jacket loaner stations-Cory talked about having 2 areas in Antigo where he thought he could put them.
- Discussed the fall app update with the ADRC. Feeling frustrated about the app not having any movement after working so hard to get it started.
- Talked about what could be done with next fiscal year's money. Talked about ordering another farm safety display/game or designing a motorcycle safety display with leather clothes and a helmet. Also could purchase more first aid kits if there is left over money.

Thanks,
Emily
