

Astra Products | Overview

1000 Series

Manufactured in the UK, the 1000 Series concealed hydraulic door control is a single speed mechanical door closing device incorporating a hydraulic system with adjustable latching action.

Certification

- ✓ EN1634 approved
- ✓ FD30 fire doors
- ✓ FD60 fire doors

2000 Series

The 2000 Series concealed hydraulic door control is designed to offer a consistent closing action with the minimum of resistance on the opening operation. Incorporating two door controls of differing power sizes, with a fixed closing speed and adjustable latching action.

Certification

- ✓ EN1634 approved
- ✓ FD30 fire doors
- ✓ FD60 fire doors

3000 Series

The 3000 Series concealed hydraulic door control is the Flagship product for Astra as it offers 4 door closers of differing power sizes with adjustable closing speed and latching action. This series of fully controlled door closers was developed to offer the adjustability and control of an overhead type, face fixed closer with the aesthetic appeal of a concealed device.

Certification

- ✓ EN1634 approved
- ✓ FD30 fire doors
- ✓ FD60 fire doors
- ✓ EN1154 approved
- ✓ CE Marked

4000 Series

The 4000 Series is the latest innovation to surface from the Astra Research and Development Department. The fully controlled concealed door closers have been designed specifically for fire doors that require a continuous, controlled action into the latch. With easy speed adjustment this ultra efficient, easy-to-install compact door control is ideal for both refurbishment and new build projects.
