

Turning IMAGINATION into CREATION

Storybrook Hollow is a small family owned and operated workshop that specializes in bringing a wide variety of handmade fantasy creations to life. We draw our inspiration from the pages of history, folklore, fairy tales, and fiction in order to bring just a little bit of that long-forgotten whimsical wonder back into the modern world.

We are proud purveyors of **FANTASTICAL
FIGMENTS &
FANCIES**

And makings both **MAGICAL &
MYSTICAL**

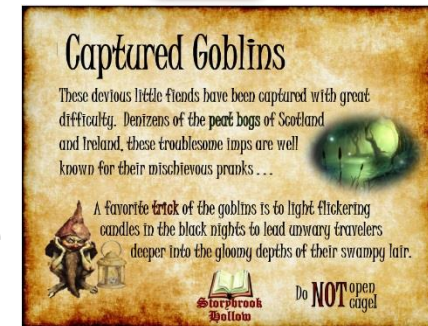

Woodcarving, pottery, painting, yarn work, and sculpture are just a few of the many mediums we work with and our imaginative creations have been featured at juried art festivals, craft shows, and renaissance faires around the country.

Long ago, our Scottish ancestors used to spend the cold and dark highland evenings huddled by the fireside and passing the time with various whimsical handicrafts. We here at **Storybrook Hollow** are carrying on that ancient tradition with a variety of products representing the very best in Gaelic culture and European folklore.
