Crop at Field Check Date _____

5. Certification

I, the undersigned applicant, agree and certify that:

- A. All wells and/or irrigation systems are located within the boundaries of the Gateway Groundwater Conservation District (District) where this flowmeter is installed.
- B. The landowner/operator grants permission to District personnel and their authorized agents to enter the property to check flowmeter equipment, and to obtain reading data at any time.
- C. The landowner/operator will notify the District immediately whenever a problem or malfunction of the flowmeter is noted, and will be responsible for maintaining the flowmeter in operable condition through the end of the Grant reporting period. No further grant money may be used to replace the flowmeter during the Grant reporting period.
- D. The flowmeter will not be moved, altered, or modified without express consent of the District.
- E. The Applicant has fully paid for the flowmeter equipment that is the subject of this application PRIOR to requesting cost-share assistance and has provided proof of payment to District.
- F. The District has not initiated any enforcement action (in writing) against the owner/operator of the property where this flowmeter is located within the past six months.
- G. The property where this flowmeter is located is in full compliance with the rules of the District.

6. Cost-Share Amount and Equipment Ownership

- A. The District will provide up to 75% of the purchase cost of the flowmeter, subject to Meter Grant fund availability and owner/operator compliance with Section 5, items A through G.
- B. The District retains no ownership of the flowmeter at any time.
