DESCRIPTION: Here is an attractive, serviceable hunting bow. Nice looking Zebrawood riser and tip overlays. No delamination; no cracks; limbs are straight. Riser is in excellent condition, as are the overlays and tips. No drilled holes. There was one long stress line on the back that runs from the grip down to the end of the riser (see pic). It was filled with Loctite, but you can see where the line was filled. A few scratches, scuffs, superficial lines, and blemishes on the limbs. Still, this is a serviceable and attractive hunting bow for the money.
