

# ORION TEMPLATE OF COLUMBIA

The purpose of this illustration is to continue in the study of the multi-layered Luciferian and Masonic encryption of the District of Columbia. The core of the District is dedicated to the adoration and exhalation of the combined sexual energies of the male-female properties of the Universe as mirrored from the constellation of Orion approximately. Although the environs are female in nature, such as 'Virginia', 'Maryland', 'Annapolis,' etc., the monumental fixtures are male. These motifs are in the form of the phallus and anthropomorphic properties of the 'Masonic Man' that is construed with the various ley-lines. The main emphases of this Luciferian pattern is that of the counterfeit association of Orion as Nimrod, the 1st Mason at that stood opposed as a 'Mighty Hunter' against YHVH.

It appears that the Orion celestial template matches the core of the Washington DC Mall. The Belt of Orion approximates the major monuments. Even the celestial Equatorial line mirrors the Potomac River as to the various bridges that span the waterway.

**GREAT PYRAMIDS OF GIZA**  
North-South direction and inverted 45 degrees

As it has been well researched, the Giza Pyramids of Egypt also mirror the Belt of Orion, pertinent to the District would have such an esoteric configuration then also approximate the core monuments as the White house, the Washington Monument and the Jefferson Memorial.

The Mighty Hunter  
Luciferian 'Nimrod'  
antitype of Jesus Christ

This illustration further supposes that given the Orion celestial template, other corresponding points would also appear to match. Such is the case with the Horseshoe Nebula or the 'Dragon' Cloud at the edge of the ley-line from Alnitak. This area appears to correspond to the Almas Masonic Temple. It appears that the encryption is Islamic in constitution and venerates the Muslim god Allah. It is believed that this 'Allah' is the Moon goddess, Isis, etc. The written word in Arabic construes it as a 'dragon' in terms of its calligraphy. The ley-line is at a 33 degree angle, as it is in the constellation.
