## HARVEST LABEL

### 25th ANNIVERSARY

*HARVEST LABEL®*, established in 1995, is a carry and accessories brand based out of Osaka, Japan. Originally launched by fusing master craftsmanship into military inspiration to create an exceptional premium line of bags from our heart and soul. Over the next two decades, the company brand continued to evolve to craft same high quality bags with increasingly wide range of eye catching designs that you see today.

*In recognition of our brand both domestically and internationally, Harvest Corporation was chosen and represented as the official Japanese bag design/manufacturer during the 42nd G7 summit, held on May 26–27, 2016 at Mie, Japan. Then again at the G20 summit held on June 28-29, 2019 at Osaka, Japan. The bags produced adhered to strict quality standards, and were provided to the world's top government officials and media representatives.*

*As we enter our 25th year in 2020, we are revamping our global brand logo. This is to synch all our international distribution networks to highlight our design and quality standards that began from a small studio east of downtown Osaka. We look to further challenge ourselves to produce the finest quality bags without losing sight of our mission, to craft from our heart and soul.*
