Safety Event Classification

Thursday, December 5, 2019

9:00 am to 12:00 p.m. Landmark Medical Center, Christensen Conference Center
115 Cass Ave. Woonsocket, Ri02895

This program focuses on safety event classification (SEC) system that provides common definitions, and algorithm for the classification of a safety events. The classification is based upon a degree of harm that results from a deviation from an expected performance or standards of care. The SEC serves as a foundation for the calculation of a serious safety event, a volume adjusted measure of events resulting in moderate to severe harm, including death. This program is intended for quality, risk, and nurse peer review colleagues. Continuing education credits are offered for nurses.
