Double S Manufacturing was founded in 1987 to cater specifically to the lawn care industry. Our goal is to provide quality, industrial replacement parts for various brands of sprinkler installation equipment. Since our inception, we have created additional products to make your job easier and more efficient.

In 1990, in association with the University of Nebraska Research, a stronger grade of steel was developed for the use in our Plow Blades. The *Bullet* design, which used a 2" standard bullet, was developed to prevent blades from "walking" out of the ground, especially in compacted or clay soil. Pipe depth is more uniform, especially where lines must cross, because as blades are raised for the crossing, the pipe is not pulled out, but instead remains well below ground level. No more stops to hand dig or repair crossings!

Using proven, custom designed adjustments of blade angles and special hardened, sharp blade edges, Double S now provides very high quality replacement Plow Blades for nearly any brand of sprinkler plowing equipment. We can custom build these products to match your equipment. Please contact us if you do not see a product that matches up with the model you are using.

When your income is based on job completion, it only makes sense to spend no more than the minimum time required to professionally complete the job. Wasted time cleaning a yard, repairing sod, or fixing equipment can seriously cut productivity. Double S products will help you maximize your production in the hours you spend.

Double S Products are built with the goal of –

- ✓ Proper Fit
- ✓ Innovative Design
- ✓ Sturdy Construction
- ✓ Quick and Easy Installation

To back it all up, we guarantee all of our products! All Double S Products have a 60-day guarantee. (The guarantee is void if products are installed improperly or used in improper conditions.)

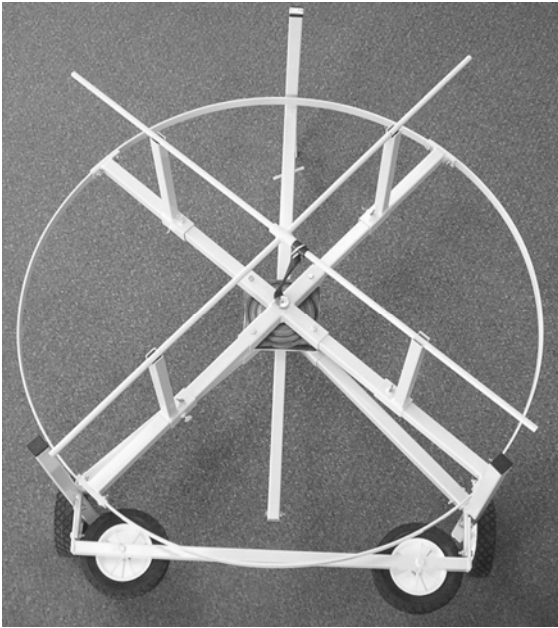

To order these products, please contact your local Double S Dealer or call us at 1-800-554-8715.

PIPE COIL DISPENSING RACK

DESCRIPTION	ITEM	PRICE
1"	DOU-300	\$657.00
1 ¼" – 1 ½"	DOU-301	\$883.00

- ✓ Makes pipe pulling a one-person operation
- ✓ Keeps pipe straight, eliminating twists and waste
- ✓ Allows for pipe length adjustments for obstructions
- ✓ Easily adjustable to accommodate various pipe coil sizes

The Double S 1" Pipe Coil Dispensing Rack will securely hold a 300' roll of 1" poly pipe. It will also accommodate large pipe for easy dispensing. One person working alone can use the Pipe Coil Dispensing Rack for installing long runs of piping, which can save you labor cost.

The rack is adjustable to accommodate pipe coils from 14" (inside dimensions) to 47" (outside dimensions). This rack is powder coated, which provides you with a long-lasting durable finish and a professional appearance.

Small enough for easy hauling, yet large enough for stability, the Pipe Coil Dispensing Rack will instantly become an indispensable tool for your installation team.

DESCRIPTION	ITEM	PRICE
18" W x 20" D	DOU-1820	\$177.00
18" W x 26" D	DOU-1826	\$183.00
24" W x 20" D	DOU-2420	\$199.00
24" W x 26" D	DOU-2426	\$206.00

- ✓ Stable design allows trouble-free dispensing
- ✓ Convenient swing away handle
- ✓ Folds for easy storage

The Double S Wire Dispenser provides a convenient method of holding rolls of wire for any small to medium size wire dispensing job. The unit will fold down to under 3" thickness for hauling and easy storage. Unfolded, the sturdy platform makes wire pulling trouble free. The convenient, swing-away handle makes transport easy. Construction is sturdy 1" X 15 gauge square tubing with rugged 3/8" hinge pins. The powder coat finish provides commercial protection as well as a professional look.

GROUND PROBES VALVE KEYS

DESCRIPTION	ITEM	PRICE
36" Ground Probe	DOU-70936	\$32.50
48" Ground Probe	DOU-70948	\$33.80
60" Ground Probe	DOU-70960	\$35.50
72" Ground Probe	DOU-70972	\$37.25

Above prices are in boxed quantities of 12. Add 5% for quantities less than 12.

Double S Ground Probes are specifically designed with a hardened, round end. This permits easy, safe insertion at depths up to 6 feet. Because the ball end created the hole, removing the probe is done with little effort.

DESCRIPTION	ITEM	PRICE
36" Valve Key	DOU-903690	\$30.70
48" Valve Key	DOU-904890	\$32.75
60" Valve Key	DOU-906090	\$35.15
72" Valve Key	DOU-907290	\$37.20

Above prices are in boxed quantities of 12. Add 5% for quantities less than 12.

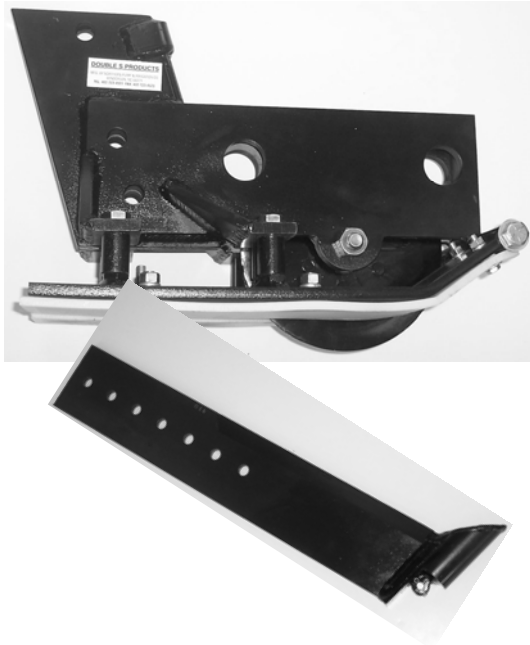

Double S Valve Keys are designed to easily reach and turn valves off and on.

SINGLE PASS ATTACHMENT (S.P.A.)

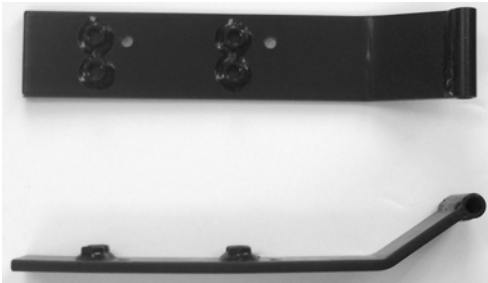

DESCRIPTION	ITEM	PRICE
SPA & 8" - 14" adjustable blade	DOU-20814	\$976.00
SPA & 10" - 16" adjustable blade	DOU-20116	\$983.00
SPA & 12 - 18" adjustable blade	DOU-20118	\$1,013.00
SPA & 14 " - 20" adjustable blade	DOU-20120	\$1,035.00
Center Section Only	DOU-2011	\$776.00
*Center Section only HD (less blade)	DOU-2011HD	\$928.00
*NEW! The heavy duty SPA has 2" bushings where the pins are inserted. These bushings will prevent premature "buttering out" of the holes on the SPA frame which will eliminate the need for rebuilding the SPA frame after a number of years use.		

The Double S Single Pass Attachment (S.P.A.) is designed for Ditch Witch Models 255sx, 350sx, and 410sx landscape plows and incorporates a Rolling Cutter with depth regulating Slider Shoes and a special adjustable Bullet Blade. Single pass means a clean, professional cut 8" to 20" deep, without the need to spend time cleaning or redressing the area.

DESCRIPTION	ITEM	PRICE
Shoes w/ Tevlar skids	DOU-60116	\$122.00
Steel Shoes Only	DOU-60016	\$ 85.00
Tevlar skids only	DOU-60126	\$ 39.00
Shoe Spacer ½ I.D.”	DOU-60127	\$ 8.65

*When ordering shoes or tevlar skids, use the above part # and note at the end of the part # R for right hand skid and L for left hand skid (looking from rear of unit)

- ✓ Prevent sod heaving
- ✓ Decrease sod damage
- ✓ Prevent sod tearing
- ✓ Decrease grass stress

The Double S Slider Shoes mount on side brackets (contact your dealer for bracket information) next to the plow blade. They skim along the terrain, holding sod in place to prevent tearing and damage. Double S shoes are coated with a very smooth Tevlar surface, reducing sod friction to prevent burning the grass (similar to a carpet burn, so often seen with steel-only shoes) and extending the life of the shoes. Double S Slide Shoes are sold in pairs. Price listed is per pair. Shoes with Tevlar skids are illustrated on the Single Pass Attachment on page 5

Bushing-rolling cutter		DOU-SH48007	\$ 7.65

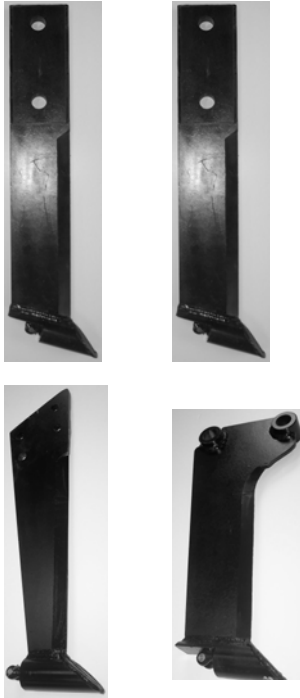

- ✓ Helps eliminate the need for thatch clean up -- saving you time and money
- ✓ Eliminates grass and vine pile up ahead of the blade
- ✓ Cuts cleanly through grass roots
- ✓ Helps to prevent grass stress
- ✓ Stops sod heaving
- ✓ Decreases horsepower requirement by 1-1/2 to 2 HP.
- ✓ Allows for neater installation

The Double S Rolling Cutter mounts ahead of the plow blade to cut through thatch, roots and debris. The clean cut not only keeps the plow blade free of debris, making it easier to pull, but also prevents sod tearing – the major cause of sod heaving along the plowed track.

All Double S Plow Blades have an industrial-strength, hardened bullet nose to insure extra long life. Double S Plow Blades have a 60-day guarantee against bending or breaking. Double S Plow Blades are available in both adjustable and non-adjustable applications. Adjustable blades require an adapter (sold separately) and can be set at 2" increments. The increments are plowing depths, not blade lengths. (For example, 8" – 14" can be set at 8", 10", 12", and 14" depths.)

*Ditch Witch Models 255sx, 350sx, 410sx adjustable blades are replacement blades for Single Pass Attachment on page 5.

DESCRIPTION	ITEM	PRICE
2" Hole Pig	DOU-60200	\$123.00
2 1/2" Hole Pig	DOU-60250	\$135.00
3" Hole Pig	DOU-60300	\$161.00

Double S Hole Pigs attach to Double S Plow Blades to enlarge the pipe cavity for larger pipe. Standard Double S Plow Blades accommodate up to larger plow blades. Additional Hole Pigs may be attached to pull multiple pipes during single plowing pass – saving half the time! For confined areas, a second hole can be drilled above the bullet to allow for a second line to be installed at the same time.

DESCRIPTION	ITEM	PRICE
1" Poly Grip	DOU-80001	\$155.00

The Double S Poly Grip quickly and securely attaches a 1" poly pipe behind a plow blade. You will save time attaching and detaching, and you don't have to worry about pipe coming loose during a long pull. When the job is done, the Poly Grip is easily released and ready for the next use. Quality design and material allow the Double S 1" Poly Grip to last many years without replacement.

*PVC Grips also Available
