

ANNOUNCEMENT

David Shelton joins Safe System Solutions Pty Ltd

We are delighted to announce David Shelton as the Principal Consultant at Safe System Solutions Pty Ltd.

Dave is one of Australia's key road safety leaders having held senior executive positions at VicRoads, including Executive Director Road Safety and Network Access, Executive Director Strategy and Planning, Executive Director Registration and Licencing, Regional Director and Acting Chief Executive. Also, between 2010 and 2013, Dave was the Chair of Australia's National Road Safety Executive Group.

By joining the team, Dave enables a stronger focus on working with our clients to operationalise the Safe System in their organisations, governments and communities.

"I had the privilege of working under Dave's leadership in a variety of road safety roles at VicRoads." Says Kenn Beer, Principal Engineer at Safe System Solutions Pty Ltd. "He's someone that knows how to make road safety change happen on a holist scale. Dave was Victoria's Road Safety Coordinator when, in 2013, Victoria recorded the lowest number of fatalities on record. His leadership and management across all elements of the Safe System is exceptional."

Dave's appointment is a clear reflection of Safe System Solutions Pty Ltd's current state: providing the latest Safe System thinking and advice to those ready for genuine road safety improvements. It also solidifies a vision of a holistic Safe System consultancy providing Safe System Assessments, Road Safety Audits and Engineering, Technical Design, Research and Road Safety Change Management.
