Alcohol Estimator

Whenever possible, we recommend purchasing all items through BevMo. They have consultants at most locations that can help with quantities, and they provide alcohol, non-alcoholic drinks, mixers and ice. Bev Mo will also deliver to most locations.

Serving sizes:

- 1 bottle of wine = 5 servings
- 750ml bottle of liquor = 18 servings (1.5 oz servings)
- 1 full sized keg = 165 beers
- 1 case = 12 bottles
- 1 bottle = 1 serving of beer

Average ratio: Full bar: 20% liquor, 15% beer, 65% wine

Calculator: http://www.perfect-party-planning.net/drinks_calculator.html

Estimate based on 100 Guests:

Amounts are for 100 guests with a four-hour open bar, including cocktail hour. For ice, figure on 1-1/2 pounds per person; 2-1/2 pounds per person if also chilling bottles.

Red Wine: 12 bottles
Beer: 120 bottles
Rum: 2 bottles

White Wine: 12 bottles
Vodka: 4 bottles
Bourbon: 2 bottles

Champagne: 20 bottles
Gin: 2 bottles
Scotch (blended): 1 bottle

**DON'T FORGET THE NON-ALCOHOLIC BEVERAGES,
ICE, MIXERS, COFFEE AND WATER!**
