

## The Almost Famous - 95<sup>th</sup> Street Group - Freeze Fly January 1<sup>st</sup> 2017 at 1:00 PM

As previously announced in the December newsletter, there will be a major event on January 1<sup>st</sup> 2017, The annual 95<sup>th</sup> Street Group - Freeze Fly. This gathering which has grown every year for several years features the **real men** from our club flying there finest aircraft: with frozen ears, noses and fingers and toes.

Recently, 4 of the real men previously mentioned were discussing plans for this year. Since the plastic wind break worked so well last year, (till the wind came up a few days later), some good tarp material was obtained along with some framing. An almost warm afternoon was selected and the material was installed.

We now have a shelter that is mostly closed on 3 sides that will handle anything up to a modest gale. With the loan of a kerosene space heater it's as warm as your man cave, almost.

So the freeze fly will now be much more comfortable between flights. And even our family members who are kind enough to come out to watch us as we perform our flying acts while trying to keep our fingers warm enough to feel the sticks will be warm and out of the breeze.

Don't forget the best part of this will be the Hot Chili prepared by Dorothy. We'll also have some hotdogs and buns. Bring your choice of beverage and join us for the 5<sup>th</sup> annual Freeze Fly, hosted by "the fearless foursome": Shelby Locklear, Rich Abels, Jerry Brown and Richard Travers.
