Comments: I have owned 4 since 1997..... for all of you who are old enough to have watched Bonanza....this unit is a Hoss. One Caveat: Run it, Run it, Run it....I have two incase one breaks down (I live in the sub-topics.....South Texas)....my only break down....is the back up....my primary unit is 10 years and running.....now you may get a \$100 board or other little item to replace....but these things are made to run, run, run. You can't build and cool a wine cellar of 1000 SF for any less...NOT possible.....and I have built two.

Bottom Line: I would recommend this product.
