With a love of butterflies and a love of photography, I've combined my two passions into something special. I've created an entire line of butterfly photography products that I sell at art and craft shows. My line of products includes, canvas prints, metal prints, tote bags, mouse pads, blankets, coasters, coffee cups, and magic mugs. I even have a demo book for children called, "The Butterfly Life Cycle Picture Book." Here is a list of some of my past events and awards.
