Cross Craft Sundays Mandala Unplugged

Mandala Unplugged is the first Cross Craft Sundays project I did as a group stitchalong on the Quilt As Inspired Youtube channel. This piece is done all by hand. If you haven't already, check it out! The project ran from January-March, but the videos will always be there if you'd like to give it a try and I'll be standing by to answer questions and give assistance where needed.

We have a Facebook Group going called Mandala Unplugged where you can review all the works in progress and conversations surrounding the project. Go to www.annmyhrequilts.com and hit the Mandala Unplugged Online Art Show to see the finished works that have come through...so far! Join us and send me a picture of your piece to knittycat@comcast.net. We can't wait to see your work!

Glue fabric around paper templates for English Paper Piecing instead of basting.

Glue fabric around fusible templates for pre-turning applique with Appliquick.

Glue templates to WS of fabric for temporary hold

Product for the Project

When to use stick glue vs. bottled glue

There are now so many ways to use water-soluble glue on our quilting projects to make life a bit easier when working certain quilting techniques. But it can be confusing to know which product to use when and where.

Here's a couple of places I use certain glues and my go-to brands – Quilter's Select and Roxanne's Glue-Baste It. Hope you find it helpful when trying to hold things in their place!

Glue a few dots in the seam allowances on turned applique pieces to hold on background for on the go stitching.

Glue binding or sashing strips down while hand stitching to avoid pinning.

Fabulous Free Motion

Here's an all-over quilting pattern I developed that can be used for background texture on any shape and size and/or stitched around applique.

Start at the red, then purple, then blue. One thread. No stops!

Retreating

Retreating is a time where you can escape the daily grind, relax in a nurturing environment, and make great new friends as you share ideas and techniques with each other. Taking this time to explore your own creativity without the distractions of daily living is the biggest gift you can give yourself, and it would be my honor to be a part of that. Please contact me at:
