

# RecoveryWerks!

*Changing the world through recovery one **underserved** community at a time*

## **Our Mission:**

RecoveryWerks! provides proven recovery support services in a safe and nurturing environment for teens and families in rural communities affected by substance use. We educate, partner with local agencies, and advocate for strong community support systems to reduce the stigma of addiction and increase recovery success.

## **Our Beliefs:**

Recovery works when there is a belief in a Higher Power.

Recovery works when physical, mental and spiritual issues are addressed as a whole.

Recovery works when clients are empowered to break the cycle of addiction and dependency through the 12 steps.

Recovery works in fellowship when clients feel safe and have access to education, counseling, sponsorship, and support groups.

## **Our Expanding Services This Summer and Beyond**

In August 2019, RecoveryWerks! became a certified Clinical Learning Institute by the Texas Department of State Health Services which allows us to provide public education training with continuing education unit (CEU) credits to professionals as well as supervise LCDC Interns. We have hired one LCDC Intern who will work primarily with teens and young adults. For the remainder of 2019, we have increased education and training opportunities for our clients and created new training opportunities to award CEUs to professionals in the community. In an effort to reach more of Comal County, we began offering weekly recovery support group meetings in Bulverde/Spring Branch, Texas for teens, young adults and family members in August 2019.

In September 2019, RecoveryWerks! is poised to be able to provide up to 12 hours of supervised study time (Monday – Friday) for teens who have opted to complete their high school graduation requirements online. Several of our teen clients have expressed concern about their ability to maintain sobriety and remain in their current high school. Providing supervised study time provides a safe environment for the students and gives parents peace of mind that they are not at home alone. In addition, our non-using sibling program, ages 9 to 17, on Wednesday nights is starting to grow. Addiction is a family disease and having a meeting geared toward non-using siblings with a family member struggling with addiction at their age is imperative.

RecoveryWerks! is excited about all these additional services as we move forward into the beginning of the 2019 school year. We are thankful for the support as we continue to grow and expand our services in Comal County.
