## Musician of the month

## Kadie Meadows

Born and raised in Muskingum County Ohio, Kadie Meadows hails with a sultry Appalachian sound. Kadie is a wife, and mother with a passion for bringing music you can truly feel to her audience. With the love and support from her family and friends, she is on a journey to spread happiness with the music she has created from the heart. Pulling from influences like Amy Winehouse, Guy Clark, Janis Joplin, Benjamin Tod, and many more. She strives to continuously learn and grow, not only in her career but her passion for playing music. She has recently debuted her first album on Green River Records titled "Memory Lane". The album can be found on streaming services like Spotify or purchased for download on the Green River Records website. You can also pick up a hard copy at any of her upcoming shows! I've also been touring most of this year and I've played festivals and venues in 8 different states.

## Artist of the Month

## Matt Fox

My interest in stained glass started at an early age, always being mesmerized by the beauty of the stained glass in the historic churches of Charleston, SC, and Notre Dame de Paris' rose windows. Standing in the colored rays inside that dark medieval cathedral made me want to learn more about the stained glass art form. I taught myself how to cut glass using hand carbide tools, which is the most challenging part of working with glass. I use the same techniques of the old-world masters, using lead came and hand foiled edges. Historically, pictorial stained glass windows of medieval times told biblical stories, often for those who could not read. I too tell stories in my glass work, but with a different purpose. I find inspiration from traveling, nature, and past experiences. Looking around my gallery, you will notice most of my pieces are animals, fish, insects, and plants. I use other mediums in combination with glass including copper tubing, tin wire, vintage silver, agate, and beach glass. To inquire about current pieces or to have a custom piece designed, visit Matt's Art Glass Facebook page or visit my gallery in the Masonic Temple in room 333

## The Art Loft

The Art of Conservation

The photographs of Jim McCormac and the watercolor illustrations of Juliet Mullett come together for a unique art show called "The Art of Conservation." These two Ohio wildlife artists have selected 25 species from the categories of mammals, birds, insects, amphibians, and fish that have interesting roles in natural history. Each of Jim's photographs is paired with an original illustration by Juliet that shows another side of the animal, a side that is often difficult to capture on film. Along with each of these 25 pairings is a descriptive placard offering an educational synopsis of the species in question.
