**OUR 2021 CFB PREVIEW (EMAILED JULY 21st!!!)**

The 2020 football season was historic on two fronts. First, we had our best season ever in CFB as we went 39-22-1 (64%) including the bowl games. We were much more selective in our bets this season due to all the uncertainty surrounding COVID but it worked with great success in college. However, we will be back to more volume and higher-rated plays in 2021. On the negative side, we had by far our worst NFL season ever on these pages with an atrocious 19-32-1 best bet record in the regular season. Prior to this season we've never had a losing season in the NFL on these pages and we've never been below 56% in any season in the NFL!

Overall, you are 522-427-19 (55%) betting every single star-rated pick on these pages the last 6 years. You can see all our picks each year starting on page 5. In an industry where so many touts advertise guaranteed winners and 70-90% records, the reality is 55% is the best record by far out of any newsletter the last 6 years (see below) and the most successful bettors (ex: Billy Walters) of all time have hit only 57% over the long haul.

With each passing year, we have more influence on markets and if getting the absolute best number is important to you and you can bet very early in the week, VIP might be worth your while this season. It is \$599 and it is for all sports for 12 months. You will receive the picks via email and text. Note we are running a July 4th Weekend Special with the lowest prices offered the rest of the summer. Those prices will go up Tuesday, July 6th.

Finally, not only are football stadiums looking to be full capacity this fall, but Vegas is now at 100% capacity for the first time in over a year. If you're visiting make sure to check out the brand new Circa Sportsbook. It is the best book in Vegas in our opinion. Enjoy your summer! The next issue comes out Wednesday, July 21st.

Sincerely,

Brad Powers and Staff

# 2021 Position-By-Position "Up/Downs" for all 130 FBS teams!

Since we don't handicap baseball, the summer months give us ample time to go through all 130 FBS teams team with a fine tooth comb for the upcoming college football season.

One of the methods we use in coming up with some initial power ratings for each team are our position-by-position "Up/Downs." Basically, we go through every position of every team and give a value of "-3 to +3" for QBs, RBs, WR/TE, OL, DL, LBs, DBs, Special Teams, Coaches and Intangibles.

A team with a "+3" for a single position means that we have that position power-rated up 3 points from the previous season. A good example for this year would be Vanderbilt's offensive line. Last year they lost three starters and then four players decided to opt out (just 20 career starts). The depth got so bad they had to move over a 3-year starting NG to OL. Now this year Vanderbilt returns four starters (103 career starts) and they should be much improved with also the return of three players who opted out.

A team with a "-3" for a single position means that we have that position power-rated down three points from the previous season. A good example for this year would be Buffalo's coaching staff. After the spring, their head coach Lance Leipold took the Kansas job and took a lot of assistants with him. On top of that new head coach Maurice Linguist was hired from Michigan and did not retain any of the assistants who remained. So the Bulls have an entirely new staff after spring!

With 10 different categories, the maximum value a team can be up or down from the previous season is 30. That +30 or -30 points rarely, if ever, happens and the only example we can give you in the last 10 years of a team being nearly 4 TD's different (power ratings wise) from the previous season is UCF in

2015. The Knights went 0-12 (-24 ppg) in 2015 following a 9-4 season where they were +9 ppg. We had them power-rated 27 points lower by the end of the season. The next closest was Louisville who went from 8-5 in 2017 (+11 ppg) to 2-10 (-24 ppg) in 2018. We had them power-rated down about 24 points from the beginning of the season.

Below are our "Up/Downs" for every position on every team. For the coach's category (CCH), new coaches can sometimes be downgraded because they are new to that program and don't know the strengths and weaknesses of the players yet (see Buffalo). Also they could be installing new schemes on offense and/or defense and the current players might not fit their styles of play.

Finally, the intangibles category covers a broad range of categories including Close Wins/Losses from the previous year, Strength of Schedule (is it weaker or stronger from last year?), Turnovers, Injuries (were they healthy or banged up last year), etc. A team like Vanderbilt was graded "+2.5" in that category because they were -8 in TO's, suffered three close losses, play an easier schedule and lost 60 starts due to injury.

As you can see LSU has the highest "plus" grade coming off a season where they only had 5 returning starters and went 5-5. This year the Tigers return 18 starters. Buffalo who lost their entire coaching staff after spring and saw 10 players enter the transfer portal off the 2-deep is at the bottom of the chart.

**Note: Most teams are "+" this year because on average schools return 3 more starters than any other season (16 returning starters on average vs 13). This is because of the NCAA granting an extra year of eligibility due to the 2020 COVID season. The 2021 season will feature some of the most experienced teams in CFB history!**
