

201-504-301

Best Budget: HDMI 3x1 1080p 3D Switch

This HDMI 3x1 switcher offers fantastic features with support for 1080p and 3D picture quality. Additionally, there is no need for a power source since the 201-504-301 draws power directly from its connected inputs. Moreover, there is full support straight out of the box for HDMI 1.3 & 1.4.

With black-colored compact as 77 x 56 x 15mm and 40g, it is small enough to hide pretty much anywhere on a media center and drawer without drawing too much attention. Although it is 1080p only, yet it is still a best-in-class HDMI switcher, thanks to its plug & play and invisible design.

FEATURES

- Support 2.25Gbps data rate for tmds clock up to 250MHz
- Support HDMI 1.4a
- Support 3D
