EARTH SOLUTIONS PROJECT

Experts & the World Solving the Our Problems

- ❖ **There are 28 urgent problems needing expert attention around our world.**
- ❖ **The Earth Solutions Project** will use **Crowd Research** to include the input of various experts and the public around the world in 28 issue areas.
- ❖ The **Project** will create a platform in which experts and the public share and work toward solutions.
- ❖ Below is former World Bank vice president Jean-François Rischard's list of *Twenty Global Issues* that need to be solved in twenty years. He recommended that 30 world experts in each field gather for two years to make recommendations to 70 other experts in their field to come up with solutions.
- ❖ We have added 8 more issues to be addressed. **The Earth Solutions Project welcomes** the creation of a world community of experts and thousands of world contributors adding and editing global solutions.

July 2014: UPDATE

BREAKDOWN IN GLOBAL COMMUNICATION

Unless a breakthrough is made in communication, values agreement, institutions and new systems, wars will proliferate... the Middle East, Afghanistan, Africa, Ukraine... is Asia next?

DRIVING THE BREAKDOWN

1. Lack of sustainable communities, drug gangs and population growth in poor nations are driving illegal immigration, fostering friction globally.
2. All permanent members of the UN Security Council are engaged in weapons profiteering, driving violence and war.
3. Billionaire Koch Brothers, Tea Party, reactionary forces are growing against the United Nations and sustainability.
4. Fundamentalist extremists are locking horns globally.
5. Kleptocracy is growing, oligarchy and plutocracy are overwhelming democracy because successful, “traditional” type people are not participating in the democratic transformation needed for new institutions and systems.
