fashion forward

During the past 35 years, **CANADIAN DRAPERY HARDWARE LTD.** (CDH) has become your leading source of decorative drapery hardware and drapery workroom supplies.

Our continuous growth has been attributed to listening to our clients and answering their every need when it relates to style, design, functionality and fashion.

Since its introduction, the **Sahara** Collection by CDH has been a staple for all our designers and with so much input from you, our very valued clients, we continue to evolve from past to present to future.

The 1 1/8" (28mm) diameter **Sahara**, available in hundreds of combinations of styles and finishes continues to be the leading product as we move **fashion forward.**

Within this wonderful user-friendly catalog, we are so very pleased to provide you with all the current, past and new designs for all your window fashion needs.

If you have any questions or comments, please do not hesitate to contact us at any time.

Enjoy this great sales tool!

Sincerely,

*Michael Ferdman*

President

- These brackets and rings are designed to allow the rings to pass over the brackets, allowing a completely free flow of the drapery across the span of the treatment, regardless of length of rod face width.
- Ces supports et anneaux sont conçus pour permettre aux anneaux de passer par-dessus les supports, permettant un fonctionnement libre des rideaux tout au long de la tringle.
- Estos soportes y anillos están diseñados para permitir que los anillos pasen sobre los soportes, permitiendo un flujo completamente libre de la cortina de lado a lado.

- These brackets and rings are designed to allow the rings to pass over the brackets, allowing a completely free flow of the drapery across the span of the treatment, regardless of length of rod face width.
- Ces supports et anneaux sont conçus pour permettre aux anneaux de passer par-dessus les supports, permettant un fonctionnement libre des rideaux tout au long de la tringle.
- Estos soportes y anillos están diseñados para permitir que los anillos pasen sobre los soportes, permitiendo un flujo completamente libre de la cortina de lado a lado.
