PRODUCT

Spectrol Motorcycle 10W40 SN JASO MA/MA2
Motorcycle Engine Oil

FEATURES/BENEFITS

- Special properties for the wet clutch system, high RPMs and temperatures, and metals found in these systems.
- Provides superior thermal and oxidation stability, corrosion and valve train-wear protections, and prevents sludge formation.

APPLICATIONS

- *Spectrol 4-Cycle Engine Oils* are premium quality oils formulated for motorcycles using highly refined paraffinic base oils and select additives to provide special properties for the wet clutch system, high RPMs and temperatures, and metals found in these systems. *Spectrol Performance 4-Cycle Engine Oils* are suitable for use in applications requiring API SN, JASO MA or MA2 oils.

SPECIFICATIONS/APPROVALS

- *Spectrol Performance 4-Cycle Engine Oils* are suitable for use in applications requiring API SN, JASO MA or MA2 oils.

TYPICAL PHYSICAL PROPERTIES

SAE 10W-40 SN/CF	Typical Results
Density @ 15.6°C	7.27 lbs/gal
Specific gravity @ 15.6°C	0.873
Viscosity @ 100°C	14.5 cSt
Viscosity @ 40°C	95 cSt
Viscosity Index	150
Flash Point (PMCC), °C	227
Pour Point (D97), °C	-33
CCS Viscosity @ -25 °C	6600 cP
Color	3.0

Rev. 07/09/18

ADDITIONAL INFORMATION

Please use proper handling and care that you would use with any motor oil.
